UBS Liquid Assets Government Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Fund's investments. In the event a fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 266,900,497	\$—	\$ 266,900,497
U.S. Treasury obligations	—	181,577,566	—	181,577,566
Repurchase agreements	—	853,602,787	—	853,602,787
Total	\$—	\$1,302,080,850	\$—	\$1,302,080,850

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

³ Rate shown reflects yield at April 30, 2026.

UBS Liquid Assets Government Fund

Financial highlights

Selected data for a share of beneficial interest outstanding throughout each year is presented below:

	Years ended April 30,				
	2026	2025	2024	2023	2022
Net asset value, beginning of year	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00
Net investment income (loss)	0.040	0.048	0.053	0.030	0.001
Net realized and unrealized gain (loss)	(0.000) ¹	0.000 ¹	0.000 ¹	(0.000) ¹	(0.000) ¹
Net increase (decrease) from operations	0.040	0.048	0.053	0.030	0.001
Dividends from net investment income	(0.040)	(0.048)	(0.053)	(0.030)	(0.001)
Distributions from net realized gains	—	—	(0.000) ¹	(0.000) ¹	—
Total dividends and distributions	(0.040)	(0.048)	(0.053)	(0.030)	(0.001)
Net asset value, end of year	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00
Total investment return²	4.00%	4.83%	5.42%	2.97%	0.05%
Ratios to average net assets:					
Expenses before fee waivers	0.08%	0.06%	0.06%	0.07%	0.07%
Expenses after fee waivers	0.04%	0.04%	0.04%	0.04%	0.04%
Net investment income (loss)	3.99%	4.82%	5.30%	2.97%	0.05%
Supplemental data:					
Net assets, end of year (000's)	\$1,285,860	\$1,081,220	\$1,068,672	\$988,106	\$1,018,771

¹ Amount represents less than \$0.0005 or \$(0.0005) per share.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

See accompanying notes to financial statements.

UBS Liquid Assets Government Fund

Notes to financial statements

Organization and significant accounting policies

UBS Liquid Assets Government Fund (the “Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of UBS Series Funds (the “Trust”), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein.

UBS Asset Management (Americas) LLC (“UBS AM”), is the investment advisor and administrator for the Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Fund’s financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Fund’s portfolio management team acts as the Fund’s CODM. The Fund represents a single operating segment, as the CODM monitors the operating results of the Fund as a whole, and the Fund’s long-term strategic asset allocation is pre-determined in accordance with the Fund’s single investment objective which is executed by the Fund’s portfolio managers as a team. The financial information in the form of the Fund’s portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment’s performance versus the Fund’s comparative benchmarks and to make resource allocation decisions for the Fund’s single segment, is consistent with that presented within the Fund’s financial statements. Segment assets are reflected on the accompanying statement of assets and liabilities as “total assets” and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments—Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), the Fund has adopted certain policies that enables it to use the amortized cost method of valuation. The Fund has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market

UBS Liquid Assets Government Fund

Notes to financial statements

fund”, the Fund values its investments at amortized cost unless UBS AM, as the valuation designee appointed by the Fund’s Board of Trustees (the “Board”) pursuant to Rule 2a-5 under the 1940 Act, determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the “VC”) to assist with its designated responsibilities as valuation designee with respect to the Fund’s portfolio of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Fund’s portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment’s fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund’s investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of Fund’s own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Fund’s Portfolio of investments.

Constant net asset value per share—The Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund has adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable it to do so. The Fund has adopted a policy to operate as a “government money market fund” and as such the Fund is permitted to seek to maintain a stable price per share.

Liquidity fee—By operating as a “government money market fund”, the Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject the Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—The Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller’s agreement to repurchase them at an agreed upon date (or upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. The Fund maintains custody of the purchased securities prior to their repurchase, either through its regular custodian or through a special “tri-party” custodian or sub-custodian that maintains a separate account for both the Fund and its

UBS Liquid Assets Government Fund

Notes to financial statements

counterparty (in either case, in accordance with the 1940 Act). The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Fund and the clearing member through which the Fund's transaction was effected. The Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by obligations that are not eligible for direct investment under the Fund's investment strategies and limitations, may require the Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. The Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Under certain circumstances, the Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in the Fund at the end of the day in order to avoid having the Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

UBS Liquid Assets Government Fund

Notes to financial statements

Investment advisor and administrator and other transactions with affiliates

The Board has approved an investment advisory and administration contract (the "Advisory Contract") with UBS AM, under which UBS AM serves as investment advisor and administrator of the Fund. In accordance with the Advisory Contract, the Fund pays UBS AM an investment advisory and administration fee, which is accrued daily and paid monthly. Where the services are provided directly by UBS AM or an affiliate, the fee will be limited to reimbursement of UBS AM's direct advisory/administrative costs and expenses and will exclude any profit or overhead charges. Where UBS AM arranges for an unaffiliated person to provide services, the Fund will reimburse UBS AM for the cost of the services provided by the unaffiliated person, but no additional profit or overhead charge will be included or the Fund will pay the service provider directly. UBS AM has advised the Fund that for the period ended April 30, 2026, its direct advisory/administrative costs and expenses approximate an annual rate of 0.04% of the average daily net assets of the Fund effective May 1, 2025. These expenses are estimated amounts in addition to other expenses of the Fund. To the extent such fees are not waived, UBS AM periodically will review Fund expenses in an effort to confirm that only direct costs and expenses are paid to UBS AM by the Fund.

For the period ended April 30, 2026, UBS AM waived its entire fee for its direct advisory/administrative costs and expenses; such amount is not subject to future recoupment.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

	For the years ended April 30,	
	2026	2025
Shares sold	5,927,026,250	4,843,359,942
Shares repurchased	(5,766,232,732)	(4,882,733,338)
Dividends reinvested	43,846,282	51,916,068
Net increase (decrease) in beneficial interest	204,639,800	12,542,672

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Fund during the fiscal years ended April 30, 2026 and April 30, 2025 was ordinary income in the amount of \$44,207,480 and \$51,551,388, respectively.

At April 30, 2026, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
\$3,609,843	\$—	\$(83)	\$—	\$(3,603,580)	\$6,180

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2026, the Fund had capital loss carryforwards of \$83 in short-term capital losses.

UBS Liquid Assets Government Fund

Notes to financial statements

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2026, the Fund did not incur any interest or penalties.

The income generated by UBS Liquid Assets Government Fund is entirely classified as Qualified Interest Income ("QII"). According to Section 871(k) of the Internal Revenue Code, QII enables interest income from U.S. government securities and eligible instruments to be distributed without being subject to U.S. withholding tax.

Each of the tax years in the four year period ended April 30, 2026, remains subject to examination by the Internal Revenue Service and state taxing authorities.

UBS Liquid Assets Government Fund

Report of independent registered public accounting firm

To the Shareholders and the Board of Trustees of UBS Liquid Assets Government Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of UBS Liquid Assets Government Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), including the portfolio of investments, as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more UBS investment companies since 1978.

Financial highlights

Selected data for a share of beneficial interest outstanding throughout each year is presented below:

	Years ended April 30,				
	2026	2025	2024	2023	2022
Net asset value, beginning of year	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00
Net investment income (loss)	0.034	0.042	0.047	0.025	0.000 ¹
Net realized and unrealized gain (loss)	0.000 ¹	0.000 ¹	—	—	0.000 ¹
Net increase (decrease) from operations	0.034	0.042	0.047	0.025	0.000 ¹
Dividends from net investment income	(0.034)	(0.042)	(0.047)	(0.025)	(0.000) ¹
Distributions from net realized gains	(0.000) ¹	—	—	—	(0.000) ¹
Total dividends and distributions	(0.034)	(0.042)	(0.047)	(0.025)	(0.000) ¹
Net asset value, end of year	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00	\$ 1.00
Total investment return²	3.38%	4.17%	4.73%	2.52%	0.01%
Ratios to average net assets:					
Expenses before fee waivers and/or expense reimbursements ³	0.68%	0.69%	0.68%	0.64%	0.58%
Expenses after fee waivers and/or expense reimbursements ³	0.68%	0.69%	0.68%	0.57%	0.08%
Net investment income (loss) ³	3.37%	4.16%	4.69%	2.47%	0.01%
Supplemental data:					
Net assets, end of year (000's)	\$1,373,972	\$953,283	\$808,016	\$845,526	\$1,043,591

¹ Amount represents less than \$0.0005 or \$(0.0005) per share.

² Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

³ Ratios include the Fund's share of income, expenses and expense waivers allocated from the Master Fund.

See accompanying notes to financial statements and the attached Master Trust financial statements.

UBS RMA Government Money Market Fund

Notes to financial statements

Organization and significant accounting policies

UBS RMA Government Money Market Fund ("RMA Government Fund" or the "Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust"), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein.

RMA Government Fund is a "feeder fund" that invests substantially all of its assets in a "master fund"—Government Master Fund (the "Master Fund", a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder fund and its respective Master Fund have the same investment objectives. RMA Government Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) LLC ("UBS AM") is the investment advisor and administrator for the Master Fund and the administrator for the Fund. UBS Asset Management (US) Inc. ("UBS AM—US") serves as principal underwriter for the Fund. UBS AM and UBS AM—US are indirect wholly owned subsidiaries of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of the Fund is directly affected by the performance of the Master Fund. The value of such investment reflects the Fund's proportionate interest in the net assets of the Master Fund (5.70% at April 30, 2026).

All of the net investment income and realized and unrealized gains and losses from investment activities of the Master Fund are allocated pro rata, based on respective ownership interests, among the Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Fund, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Fund's financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). Adoption of the new standard impacts financial statement disclosures only and does not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Fund's portfolio management team acts as both the Master and Feeder Fund's CODM. The Fund represents a single operating segment, as the CODM monitors the operating results of the Fund as a whole, and the Master Fund's long-term strategic asset allocation is

UBS RMA Government Money Market Fund

Notes to financial statements

pre-determined in accordance with the Fund's single investment objective which is executed by the Master Fund's portfolio managers as a team. The financial information in the form of the Master Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Fund's comparative benchmarks and to make resource allocation decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments—The Fund records its investment in the Master Fund at fair value. Securities held by the Master Fund are valued as indicated in the Master Fund's Notes to financial statements, which are included elsewhere in this report.

Constant net asset value per share—RMA Government Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund and the Master Fund have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable the Fund to do so. RMA Government Fund and the Master Fund have each adopted a policy to operate as a "government money market fund". Under Rule 2a-7 of the 1940 Act, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities) (either directly or through a related master portfolio). As a "government money market fund", RMA Government Fund is permitted to seek to maintain a stable price per share.

Liquidity fee—By operating as a "government money market fund", RMA Government Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Fund's Board of Trustees (the "Board") may elect to subject RMA Government Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as administrator to the Fund pursuant to an Administration Agreement approved by the Trust's board. In accordance with the Administration Agreement, the Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of the Fund's average daily net assets:

Fund	Administration fee
RMA Government Money Market Fund	0.10%

At April 30, 2026, the Fund owed UBS AM \$127,361 for administrative services.

UBS RMA Government Money Market Fund

Notes to financial statements

Shareholder services plan

UBS AM—US is the principal underwriter and distributor of the Fund's shares. Under the shareholder services plan, UBS AM—US is entitled to a monthly shareholder servicing fee, payable by the Fund, at the below annual rate, as a percentage of the Fund's average daily net assets.

Fund	Shareholder servicing fee
RMA Government Money Market Fund	0.25%

At April 30, 2026, the Fund owed UBS AM—US \$261,231 for shareholder servicing fees.

UBS AM and UBS AM—US may voluntarily undertake to waive fees, including in the event that Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. For the period ended April 30, 2026, UBS AM and UBS AM—US did not voluntarily waive fees and/or reimburse expenses.

Transfer agency and related services fees

UBS Financial Services Inc. provides certain services pursuant to a delegation of authority from BNY Mellon Investment Servicing (US) Inc. ("BNY Mellon"), the Fund's transfer agent, and was compensated for these services by BNY Mellon, not the Fund. For the period ended April 30, 2026, UBS Financial Services Inc. received from BNY Mellon, not the Fund, total delegated services fees of \$1,001,163.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

	For the years ended April 30,	
	2026	2025
Shares sold	30,712,366,792	25,138,563,706
Shares repurchased	(30,324,917,927)	(25,028,263,638)
Dividends reinvested	33,253,808	34,928,763
Net increase (decrease) in shares outstanding	420,702,673	145,228,831

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal year ended April 30, 2026 and April 30, 2025 were as follows:

	2026		
Fund	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	Total distributions paid
RMA Government Money Market Fund	\$35,552,191	\$—	\$35,552,191

	2025		
Fund	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	Total distributions paid
RMA Government Money Market Fund	\$37,701,081	\$—	\$37,701,081

UBS RMA Government Money Market Fund

Notes to financial statements

At April 30, 2026, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed ordinary income	Undistributed long-term capital gains	Other temporary differences	Total
RMA Government Money Market Fund	\$3,147,454	\$20,531	\$(3,180,577)	\$(12,592)

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2026, the Fund had no net capital loss carry-forward.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2026, the Fund did not incur any interest or penalties.

The income generated by UBS RMA Government Fund is entirely classified as Qualified Interest Income ("QII"). According to Section 871(k) of the Internal Revenue Code, QII enables interest income from U.S. government securities and eligible instruments to be distributed without being subject to U.S. withholding tax.

Each of the tax years in the four year period ended April 30, 2026, remains subject to examination by the Internal Revenue Service and state taxing authorities.

UBS RMA Government Money Market Fund

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of UBS RMA Government Money Market Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of UBS RMA Government Money Market Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Fund. Investors in the related "feeder fund" should instead focus on separate expense information relevant to the particular feeder fund; the expense information for the feeder fund will reflect its proportionate share of the corresponding Master Fund's expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. This example is intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2025 to April 30, 2026.

Actual expenses

The first line in the table below for the Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for the Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for the Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2025	Ending account value April 30, 2026	Expenses paid during period 11/01/25 to 04/30/26 ¹	Expense ratio during the period
Actual	\$1,000.00	\$1,022.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

Master Trust

Portfolio characteristics at a glance—April 30, 2026 (unaudited)

Government Master Fund

Characteristics

Weighted average maturity ¹	41 days
--	---------

Portfolio composition²

U.S. government agency obligations	46.4%
Repurchase agreements	32.1
U.S. Treasury obligations	20.5
Other assets in excess of liabilities	1.0
Total	100.0%

You could lose money by investing in a money market fund. Although Government Master Fund seeks to preserve the value of your investment so that the shares of each related feeder fund are at \$1.00 per share, Government Master Fund cannot guarantee it will do so. An investment in a money market fund is not a bank account and not insured or guaranteed by the Federal Deposit Insurance Corporation ("FDIC") or any other government agency. A money market fund's sponsor is not required to reimburse the fund for losses, and you should not expect that the fund's sponsor will provide financial support to a money market fund at any time, including during periods of market stress.

Not FDIC insured. May lose value. No bank guarantee.

¹ The Master Fund's portfolio is actively managed and its weighted average maturity will differ over time.

² Weightings represent percentages of the Master Fund's net assets as of the date indicated. The Master Fund's portfolio is actively managed and its composition will vary over time.

Government Master Fund

Portfolio of investments—April 30, 2026

For a listing of defined portfolio acronyms that are used throughout the Portfolio of investments as well as the tables that follow, please refer to the Glossary of terms used in the Portfolio of investments.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 11,220,473,846	\$—	\$ 11,220,473,846
U.S. Treasury obligations	—	4,941,415,451	—	4,941,415,451
Repurchase agreements	—	7,748,000,000	—	7,748,000,000
Total	\$—	\$23,909,889,297	\$—	\$23,909,889,297

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

³ Rate shown reflects yield at April 30, 2026.

⁴ Investment has a put feature, which allows the Master Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2026 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Master Fund if the put feature was exercised as of April 30, 2026.

Government Master Fund

Financial highlights

Selected financial data throughout each year is presented below:

	Years ended April 30,				
	2026	2025	2024	2023	2022
Ratios to average net assets:					
Expenses before fee waivers	0.10%	0.10%	0.10%	0.10%	0.10%
Expenses after fee waivers	0.10%	0.10%	0.10%	0.04%	0.06%
Net investment income (loss)	3.95%	4.77%	5.25%	3.78%	0.02%
Supplemental data:					
Total investment return ¹	4.04%	4.90%	5.39%	3.14%	0.03%
Net assets, end of year (000's)	\$24,161,264	\$24,042,755	\$23,323,471	\$19,234,965	\$4,297,678

¹ The total investment return for the Master Funds is calculated using geometric average return. The Master Funds issue ownership interests, rather than shares, to the feeder funds. Individual investors invest only into the feeder funds. Feeder fund total investment return is calculated as described within the feeder fund financial highlights and may differ from the geometric average return of the Master Fund.

See accompanying notes to financial statements.

Government Master Fund

Notes to financial statements

Organization and significant accounting policies

Government Master Fund (the “Master Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. Government Master Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) LLC (“UBS AM”) is the investment advisor and administrator for the Master Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Master Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Fund that have not yet occurred. However, the Master Fund has not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Master Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Master Fund’s financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Fund’s portfolio management team acts as the Fund’s CODM. The Master Fund represents a single operating segment, as the CODM monitors the operating results of the Master Fund as a whole, and the Master Fund’s long-term strategic asset allocation is pre-determined in accordance with the Master Fund’s single investment objective which is executed by the Master Fund’s portfolio managers as a team. The financial information in the form of the Master Fund’s portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment’s performance versus the Master Fund’s comparative benchmarks and to make resource allocation decisions for the Master Fund’s single segment, is consistent with that presented within the Master Fund’s financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as “total assets” and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments

Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), Government Master Fund has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a “government money market fund” invests

Government Master Fund

Notes to financial statements

99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market fund”, Government Master Fund values its investments at amortized cost unless UBS AM, as the valuation designee appointed by Master Trust’s Board of Trustees (the “Board”) pursuant to Rule 2a-5 under the 1940 Act determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the “VC”) to assist with its designated responsibilities as valuation designee with respect to the Master Fund’s portfolio of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value the Master Fund’s portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment’s fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

The Master Fund’s portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund’s beneficial interests are priced. Pursuant to the Master Fund’s use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company’s prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Master Fund’s investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Master Fund’s own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Master Fund’s Portfolio of investments.

Liquidity fee—By operating as a “government money market fund”, Government Master Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject Government Master Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—Government Master Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller’s agreement to repurchase them at an agreed upon date (or

Government Master Fund

Notes to financial statements

upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. Government Master Fund maintains custody of the purchased securities prior to their repurchase, either through its regular custodian or through a special “tri-party” custodian or sub-custodian that maintains a separate account for both Government Master Fund and its counterparty (in either case, in accordance with the 1940 Act). The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Fund and the clearing member through which the Fund’s transaction was effected. The Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, Government Master Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or a fund’s investment strategies and limitations may require Government Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller’s guarantor, if any) becomes insolvent, Government Master Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. Government Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

Government Master Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. The Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, Government Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having Government Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to the Master Fund pursuant to an investment advisory and administration contract (“Management Contract”) approved by the Board. In accordance with the Management

Government Master Fund

Notes to financial statements

Contract, the Master Fund pays UBS AM an investment advisory and administration fee (“management fee”), which is accrued daily and paid monthly, at the below annual rates, as a percentage of the Master Fund’s average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

At April 30, 2026, the Master Fund owed UBS AM for investment advisory and administration services, net of waivers (if any), as follows:

Fund	Amount owed to UBS AM
Government Master Fund	\$1,941,245

In exchange for these fees, UBS AM has agreed to bear all of the Master Fund’s expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Fund, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Fund’s independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of the Master Fund’s average daily net assets. At April 30, 2026, UBS AM did not owe the Master Fund any additional reductions in administration fees for independent trustees’ fees and expenses.

In addition, UBS AM may voluntarily undertake to waive fees. This additional undertaking is voluntary and not contractual and may be terminated at any time. During the period ended April 30, 2026, the Master Fund did not experience this additional waiver.

Beneficial interest transactions

Government Master Fund

	For the years ended April 30,	
	2026	2025
Contributions	\$ 103,480,224,450	\$ 92,715,049,160
Withdrawals	(104,376,424,731)	(93,245,498,292)
Net increase (decrease) in beneficial interest	\$ (896,200,281)	\$ (530,449,132)

Federal tax status

Government Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in the Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that the Master Fund’s assets, income and distributions will be managed in such a way that an investor in the Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

ASC 740-10 “Income Taxes—Overall” sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Fund has conducted an analysis and concluded, as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would

Government Master Fund

Notes to financial statements

require recognition in the financial statements. The Master Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the statement of operations. During the period ended April 30, 2026, the Master Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2026, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Government Master Fund

Report of Independent Registered Public Accounting Firm

To the Interest holders and the Board of Trustees of Government Master Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Government Master Fund (the "Fund") (one of the funds constituting Master Trust (the "Trust")), including the portfolio of investments, as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting Master Trust) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and in accordance with the relevant ethical requirements relating to our audit.

We conducted our audits in accordance with the auditing standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

UBS Institutional/Reserves Funds

Notes to financial statements

Organization and significant accounting policies

UBS Select Government Institutional Fund ("Government Institutional Fund"), UBS Select Treasury Institutional Fund ("Treasury Institutional Fund"), UBS Select 100% US Treasury Institutional Fund ("100% US Treasury Institutional Fund"), and UBS Prime Reserves Fund ("Prime Reserves Fund"), (each a "Fund", collectively, the "Funds") are each registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust"), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein.

100% US Treasury Institutional Fund currently offers Institutional Shares and Token-Enabled Shares. Token-Enabled Shares commenced operations on March 25, 2026.

Government Institutional Fund, Treasury Institutional Fund, 100% US Treasury Institutional Fund, and Prime Reserves Fund are "feeder funds" that invest all of their investable assets in "master funds"—Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund, respectively (each a "Master Fund", collectively, the "Master Funds" and each a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder funds and their respective Master Funds have the same investment objectives.

Prior to August 28, 2007, Treasury Institutional Fund invested in securities directly. Effective August 28, 2007, Treasury Institutional Fund invests substantially all of its assets in Treasury Master Fund. Prime Reserves Fund commenced operations on January 19, 2016. Government Institutional Fund commenced operations on July 26, 2016, and 100% US Treasury Institutional Fund commenced operations on March 13, 2024.

UBS Asset Management (Americas) LLC ("UBS AM") is the investment advisor and administrator for the Master Funds and the administrator for the feeder funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of each Fund is directly affected by the performance of the corresponding Master Fund. The value of such investment reflects each Fund's proportionate interest in the net assets of its corresponding Master Fund (37.66% for Government Institutional Fund, 45.36% for 100% US Treasury Institutional Fund, 41.22% for Treasury Institutional Fund, and 61.00% for Prime Reserves Fund at April 30, 2026.)

All of the net investment income and realized and unrealized gains and losses from investment activities of each Master Fund are allocated pro rata, based on respective ownership interests, among the corresponding Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Funds, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Funds' financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Funds' financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

UBS Institutional/Reserves Funds

Notes to financial statements

The Funds adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Funds’ financial position or the results of their operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Funds’ portfolio management team acts as both the Master Funds’ and Funds’ CODM. Each of the Funds represents a single operating segment, as the CODM monitors the operating results of each Fund as a whole, and the Master Fund’s long-term strategic asset allocation is pre-determined in accordance with the Fund’s single investment objective which is executed by the Master Fund’s portfolio managers as a team. The financial information in the form of the Master Fund’s portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment’s performance versus the Fund’s comparative benchmarks and to make resource allocation decisions for the Fund’s single segment, is consistent with that presented within the Fund’s financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as “total assets” and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments—Each Fund records its investment in its corresponding Master Fund at fair value. Securities held by the Master Funds are valued as indicated in the Master Funds’ Notes to financial statements, which are included elsewhere in this report.

Constant net asset value per share—Each of the Funds attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Funds will be able to maintain a stable net asset value of \$1.00 per share. The Funds have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable each to do so. Government Institutional Fund, Treasury Institutional Fund and 100% US Treasury Institutional Fund have adopted a policy to operate as “government money market funds”. Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As “government money market funds”, Government Institutional Fund, Treasury Institutional Fund and 100% US Treasury Institutional Fund, are permitted to seek to maintain a stable price per share. Prime Reserves Fund operates as a “retail money market fund”. Under Rule 2a-7, a “retail money market fund” is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As a “retail money market fund”, Prime Reserves Fund is permitted to seek to maintain a stable price per share.

Liquidity fee—Consistent with Rule 2a-7, Prime Reserves Fund may be subject to the possible imposition of a liquidity fee under certain circumstances. Prime CNAV Master Fund may impose a fee upon the sale of your shares of the related feeder fund. For the period ended April 30, 2026, Prime Reserves Fund was not subject to any liquidity fees.

By operating as “government money market funds”, Government Institutional Fund, 100% US Treasury Institutional Fund and Treasury Institutional Fund are exempt from requirements that permit the imposition of a liquidity fee. While the Funds’ Board of Trustees (the “Board”) may elect to subject Government Institutional Fund, 100% US Treasury Institutional Fund and Treasury Institutional Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP.

UBS Institutional/Reserves Funds

Notes to financial statements

These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as administrator to each Fund pursuant to an Administration Agreement approved by the Trust’s board. In accordance with the Administration Agreement, each Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of each Fund’s average daily net assets:

Fund	Administration fee
Government Institutional Fund	0.08%
Treasury Institutional Fund	0.08
100% US Treasury Institutional Fund	0.08
Prime Reserves Fund	0.08

At April 30, 2026, each Fund owed UBS AM for administrative services as follows:

Fund	Amount owed to UBS AM
Government Institutional Fund	\$535,870
Treasury Institutional Fund	1,043,741
100% US Treasury Institutional Fund	512,743
UBS Prime Reserves Fund	900,246

In exchange for these fees, UBS AM has agreed to bear all of the Funds’ (with the exception of the 100% US Treasury Institutional Fund’s) expenses other than interest, taxes, extraordinary costs and the cost of securities purchased and sold by the Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Funds’ independent trustees, it is contractually obligated to reduce its administration fee in an amount equal to those fees and expenses. UBS AM estimates that the independent trustees’ fees and expenses will be 0.01% or less of each Fund’s average daily net assets, and that the amounts disclosed in the table above for accrued administration fees are net of independent trustees’ fees and expenses previously paid. At April 30, 2026, UBS AM did not owe the Funds any additional reductions in administration fees for independent trustees’ fees and expenses.

With respect to 100% US Treasury Institutional Fund, such Fund will bear all expenses not specifically assumed by UBS AM incurred in its operations and organization. This Fund and UBS AM have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its management fees and/or reimburse the Fund so that the Fund’s operating expenses through August 31, 2026 (excluding interest expense, if any, expenses related to shareholders’ meetings and extraordinary items) would not exceed 0.18%. The Fund has agreed to repay UBS AM for any waived management fees/reimbursed expenses to the extent that it can do so over the three years following such waived fees/reimbursed expenses without causing the Fund’s expenses in any of those three years to exceed the lesser of any applicable expense limit that is in place for the Fund (i) at the time of the waiver or reimbursement, or (ii) at the time of recoupment. The fee waiver/expense reimbursement agreement may be terminated by the Fund’s board at any time and also will terminate automatically upon the expiration or termination of the Fund’s contract with UBS AM. Upon termination of the agreement, however, UBS AM’s three year recoupment rights will survive.

UBS Institutional/Reserves Funds

Notes to financial statements

At April 30, 2026, UBS AM waived the below amounts, which are subject to future recoupments which expire according to the dates below:

Fund	Amounts owed by UBS AM	Amounts waived by UBS AM
100% US Treasury Institutional Fund	\$145,139	\$724,822

At April 30, 2026, the Funds had remaining fee waivers and expense reimbursements subject to repayment to UBS AM and respective dates of expiration as follows:

Fund	Fee waivers/ expense reimbursements subject to repayment	Expires April 30, 2027	Expires April 30, 2028	Expires April 30, 2029
100% US Treasury Institutional Fund—Institutional Shares	\$2,199,828	\$32,371	\$1,442,637	\$724,820
100% US Treasury Institutional Fund—Token-Enabled Shares	2	—	—	2

In addition, UBS AM may voluntarily undertake to waive fees, including in the event that the Funds' yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2026, there were no amounts owed by UBS AM for any such undertaking.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest for each of the Funds for the periods ended April 30, 2026 and April 30, 2025 were as follows:

Government Institutional Fund

Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

	For the years ended April 30,	
	2026	2025
Shares sold	22,286,991,908	24,749,571,753
Shares repurchased	(22,574,422,372)	(23,559,083,282)
Dividends reinvested	353,244,192	393,763,646
Net increase (decrease) in beneficial interest	65,813,728	1,584,252,117

Treasury Institutional Fund

	For the years ended April 30,	
	2026	2025
Shares sold	46,530,449,427	49,243,166,341
Shares repurchased	(48,223,816,464)	(50,189,462,400)
Dividends reinvested	648,431,081	779,349,657
Net increase (decrease) in beneficial interest	(1,044,935,956)	(166,946,402)

UBS Institutional/Reserves Funds

Notes to financial statements

Dividends reinvested	571,817,270	540,408,650
Net increase (decrease) in beneficial interest	11,246,029	6,810,946,439

* Includes \$5,156,261,571 attributed to the Plan of Reorganization pursuant to which UBS Select Prime Institutional Fund transferred its assets to UBS Prime Reserves Fund. Refer to the Reorganization of Funds in the notes to financial statements for further details.

Federal tax status

Each Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, each Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Funds during the fiscal years ended April 30, 2026 and April 30, 2025 were as follows:

Fund	2026		2025	
	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	Distributions paid from ordinary income	Distributions paid from net long-term capital gains
Government Institutional Fund	\$373,128,556	\$—	\$425,515,645	\$—
Treasury Institutional Fund	728,667,209	—	865,190,405	—
100% US Treasury Institutional Fund	277,561,739	—	179,322,289	—
Prime Reserves Fund	595,162,649	—	569,275,909	—

UBS Institutional/Reserves Funds

Notes to financial statements

At April 30, 2026, components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
Government Institutional Fund	\$26,085,282	\$180,932	\$ —	\$—	\$(26,054,816)	\$211,398
Treasury Institutional Fund	48,230,525	360,859	—	—	(47,964,691)	626,693
100% US Treasury Institutional Fund	22,337,988	71,782	—	—	(22,212,600)	197,170
Prime Reserves Fund	42,432,607	—	(25,742)	—	(42,432,575)	(25,710)

Net capital losses recognized by the Funds may be carried forward indefinitely, and retain their character as short term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed.

At April 30, 2026, the following Fund had net capital losses that will be carried forward indefinitely, as follows:

Fund	Short-term losses	Long-term losses	Net capital losses
Prime Reserves Fund	\$25,742	\$—	\$25,742

During the fiscal year ended April 30, 2026, Prime Reserves Fund utilized capital loss carryforwards of \$169.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2026, the Funds did not incur any interest or penalties.

The income generated by the Government Institutional Fund and 100% US Treasury Institutional Fund is entirely classified as Qualified Interest Income ("QII"). According to Section 871(k) of the Internal Revenue Code, QII enables interest income from U.S. government securities and eligible instruments to be distributed without being subject to U.S. withholding tax.

Each of the tax years in the four year period ended April 30, 2026, and since inception for the 100% US Treasury Institutional Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Reorganization of Funds

Following the close of business on August 23, 2024, the Target Fund reorganized into the existing Destination Fund within the Trust. The reorganization into the existing Destination Fund was as follows:

Target Fund	Destination Fund
UBS Select Prime Institutional Fund	UBS Prime Reserves Fund

Pursuant to an Agreement and Plan of Reorganization, the Target Fund transferred all of its property and assets to the Destination Fund. In exchange, the Destination Fund assumed all of the liabilities of the Target Fund and issued a proportionate interest to the Target Fund, as described below. The reorganization was accomplished by a tax-free exchange of the net assets of the Target Fund for a proportionate interest of the Destination Fund outstanding

UBS Institutional/Reserves Funds

Notes to financial statements

following the close of business on August 23, 2024. The allocated cost basis of the investments received from the Target Fund were carried forward to align ongoing reporting of the related feeder funds' allocated realized and unrealized gains and losses with amounts distributable to feeder fund shareholders for tax purposes.

Target Fund	Fund Shares	Destination Fund	Destination Fund Shares	Dollar Amount	Exchange Ratio ^(A)
UBS Select Prime Institutional Fund	5,157,047,337	UBS Prime Reserves Fund	5,156,261,571	\$5,156,261,571	1.00

^(A) Calculated by dividing the Destination Fund shares issuable by the Fund shares outstanding on Reorganization Date.

The net assets of the Target Fund, including unrealized appreciation (depreciation), were combined with those of the Destination Fund. These amounts were as follows:

Target Fund	Target Fund Unrealized Appreciation (Depreciation)	Target Fund Net Assets	Destination Fund	Destination Fund Net Assets Prior to Reorganization	Net Assets After Reorganization
UBS Select Prime Institutional Fund	\$(1,767,321)	\$5,156,771,016	UBS Prime Reserves Fund	\$8,547,172,644	\$13,703,943,660

UBS Institutional/Reserves Funds

Report of independent registered public accounting firm

To the Shareholders of UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund, and UBS Select 100% US Treasury Institutional Fund and the Board of Trustees of UBS Series Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of UBS Select Government Institutional Fund, UBS Select Treasury Institutional Fund, UBS Prime Reserves Fund, and UBS Select 100% US Treasury Institutional Fund (collectively referred to as the "Funds") (four of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2026, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (four of the funds comprising the Trust) at April 30, 2026, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting UBS Series Funds	Statement of operations	Statements of changes in net assets	Financial highlights
UBS Select Government Institutional Fund UBS Select Treasury Institutional Fund UBS Prime Reserves Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the five years in the period ended April 30, 2026
UBS Select 100% US Treasury Institutional Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the two years in the period ended April 30, 2026, and the period from March 13, 2024 (commencement of operations) through April 30, 2024

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Funds. Investors in the related "feeder funds" should instead focus on separate expense information relevant to the particular feeder funds; the expense information for the feeder funds will reflect their proportionate share of the corresponding Master Funds' expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. These examples are intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2025 to April 30, 2026.

Actual expenses

The first line in the table below for each Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2025	Ending account value April 30, 2026	Expenses paid during period 11/01/25 to 04/30/26 ¹	Expense ratio during the period
Government Master Fund				
Actual	\$1,000.00	\$1,022.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Treasury Master Fund				
Actual	\$1,000.00	\$1,022.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
100% US Treasury Master Fund				
Actual	\$1,000.00	\$1,021.80	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Prime CNAV Master Fund				
Actual	\$1,000.00	\$1,022.50	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

For a listing of defined portfolio acronyms that are used throughout the Portfolio of investments as well as the tables that follow, please refer to the Glossary of terms used in the Portfolio of investments.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 11,220,473,846	\$—	\$ 11,220,473,846
U.S. Treasury obligations	—	4,941,415,451	—	4,941,415,451
Repurchase agreements	—	7,748,000,000	—	7,748,000,000
Total	\$—	\$23,909,889,297	\$—	\$23,909,889,297

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Government Master Fund

Portfolio of investments—April 30, 2026

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

³ Rate shown reflects yield at April 30, 2026.

⁴ Investment has a put feature, which allows the Master Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2026 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Master Fund if the put feature was exercised as of April 30, 2026.

Treasury Master Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. Treasury obligations	\$—	\$ 24,473,622,393	\$—	\$ 24,473,622,393
Repurchase agreements	—	15,130,000,000	—	15,130,000,000
Total	\$—	\$39,603,622,393	\$—	\$39,603,622,393

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Rate shown reflects yield at April 30, 2026.

² Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

100% US Treasury Master Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active market for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. Treasury obligations	\$—	\$ 17,354,415,416	\$—	\$ 17,354,415,416
Total	\$—	\$17,354,415,416	\$—	\$17,354,415,416

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Rate shown reflects yield at April 30, 2026.

² Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

			Total investments (cost—\$22,894,390,818 which approximates cost for federal income tax purposes)—98.2%		22,894,390,818
			Other assets in excess of liabilities—1.8%		419,896,850
			Net assets—100.0%		\$23,314,287,668

For a listing of defined portfolio acronyms that are used throughout the Portfolio of investments as well as the tables that follow, please refer to the Glossary of terms used in the Portfolio of investments.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
Certificates of deposit	\$—	\$ 1,993,999,930	\$—	\$ 1,993,999,930
Commercial paper	—	10,958,690,888	—	10,958,690,888
Time deposits	—	1,032,000,000	—	1,032,000,000
Repurchase agreements	—	8,909,700,000	—	8,909,700,000
Total	\$—	\$22,894,390,818	\$—	\$22,894,390,818

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Prime CNAV Master Fund

Portfolio of investments—April 30, 2026

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Securities exempt from registration pursuant to Rule 144A, in the amount of \$9,401,841,067, represented 40.3% of the Master Fund's net assets at period end.

³ Investment has a put feature, which allows the Master Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2026 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Master Fund if the put feature was exercised as of April 30, 2026.

Master Trust

Notes to financial statements

Organization and significant accounting policies

Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund (each a “Master Fund”, collectively, the “Master Funds”) are each registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. The Trust is a series mutual fund with four series.

Treasury Master Fund commenced operations on August 28, 2007. Prime CNAV Master Fund commenced operations on January 19, 2016, Government Master Fund commenced operations on June 24, 2016, and 100% US Treasury Master Fund commenced operations on March 13, 2024.

UBS Asset Management (Americas) LLC (“UBS AM”) is the investment advisor and administrator for the Master Funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

Each Master Fund may issue any number of interests and each interest shall have a par value of \$0.001 per interest. The interests of a Master Fund shall represent a proportional beneficial interest in the net assets belonging to that series. Each holder of interests of a Master Fund shall be entitled to receive his or her pro rata share of all distributions made with respect to such Master Fund according to the investor’s ownership percentage of such Master Fund on the record date established for payment. Upon redemption of interests, an investor shall be paid solely out of the assets and property of such Master Fund. Beneficial interests in the Master Funds are not registered under the Securities Act of 1933, as amended, since such interests are issued in private placement transactions.

In the normal course of business, the Master Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Funds that have not yet occurred. However, the Master Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Funds’ financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The Funds are investment companies and apply the guidance in FASB ASC Topic 946—Financial Services—Investment Companies.

The Master Funds adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Master Funds’ financial position or the results of their operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Funds’ portfolio management team acts as the Master Funds’ CODM. Each of the Master Funds represents a single operating segment, as the CODM monitors the operating results of each Master Fund as a whole, and the Master Fund’s long-term strategic asset allocation is pre-determined in

Master Trust

Notes to financial statements

accordance with the Master Fund's single investment objective which is executed by the Master Fund's portfolio managers as a team. The financial information in the form of the Master Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Master Fund's comparative benchmarks and to make resource allocation decisions for the Master Fund's single segment, is consistent with that presented within the Master Fund's financial statements. Segment assets are reflected on the accompanying Statements of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying Statements of operations.

The following is a summary of significant accounting policies:

Valuation of investments

Under Rule 2a-7, Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund have adopted certain policies that enable them to use the amortized cost method of valuation. Government Master Fund, Treasury Master Fund and 100% US Treasury Master Fund, have adopted a policy to operate as "government money market funds". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). Prime CNAV Master Fund operates as a "retail money market fund". Under Rule 2a-7, a "retail money market fund" is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As "government money market funds" and as a "retail money market fund", Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund value their investments at amortized cost unless UBS AM, as the valuation designee appointed by Master Trust's Board of Trustees (the "Board") pursuant to Rule 2a-5 under the 1940 Act, determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the "VC") to assist with its designated responsibilities as valuation designee with respect to the Master Funds' portfolios of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Master Fund's portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

Each Master Fund's portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund's beneficial interests are priced. Pursuant to each Master Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company's prospectus or similar documents.

Master Trust

Notes to financial statements

US GAAP requires disclosure regarding the various inputs that are used in determining the value of each Master Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of each Master Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of each Master Fund's Portfolio of investments.

Liquidity fee—Consistent with Rule 2a-7, the Board is permitted to impose a liquidity fee on redemptions from Prime CNAV Master Fund under certain circumstances. Liquidity fees would reduce the amount an interest holder receives upon redemption of its beneficial interests. Prime CNAV Master Fund retains the liquidity fees for the benefit of its remaining interest holders. For the period ended April 30, 2026, the Board of Prime CNAV Master Fund did not impose any liquidity fees.

By operating as "government money market funds", Government Master Fund, Treasury Master Fund and 100% US Treasury Master Fund are exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject Government Master Fund, Treasury Master Fund and 100% US Treasury Master Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—Each Master Fund (except 100% US Treasury Master Fund) may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. Such Master Funds maintain custody of the purchased securities prior to their repurchase, either through their regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Master Funds and their counterparty (in either case, in accordance with the 1940 Act).

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Master Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Master Fund and the clearing member through which the Master Fund's transaction was effected. The Master Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Funds generally have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by

Master Trust

Notes to financial statements

obligations that are not eligible for direct investment under Rule 2a-7 or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Master Funds may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. Each such Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The relevant Master Funds may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Government Master Fund, Treasury Master Fund and Prime CNAV Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, a Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to each Master Fund pursuant to an investment advisory and administration contract ("Management Contract") approved by the Board. In accordance with the Management Contract, each Master Fund pays UBS AM an investment advisory and administration fee ("management fee"), which is accrued daily and paid monthly, at the below annual rates, as a percentage of each Master Fund's average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

Master Trust

Notes to financial statements

At April 30, 2026, the Master Funds owed UBS AM for investment advisory and administration services, net of waivers (if any), as follows:

Fund	Amount owed to UBS AM
Government Master Fund	\$1,941,245
Treasury Master Fund	3,134,126
100% US Treasury Master Fund	1,253,551
Prime CNAV Master Fund	1,889,282

In exchange for these fees, for each Master Fund except 100% US Treasury Master Fund, UBS AM has agreed to bear all of the Master Funds' expenses other than interest (except interest on borrowings), taxes, extraordinary costs and the cost of securities purchased and sold by such Master Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of such Master Funds' independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be less than 0.01% of each Master Fund's average daily net assets.

With respect to 100% US Treasury Master Fund, such Master Fund will bear all expenses not specifically assumed by UBS AM incurred in its operations and the offering of its shares. UBS AM has contractually agreed to waive its management fees and/or reimburse expenses so that this Master Fund's ordinary total operating expenses through August 31, 2026 (excluding, as applicable, (i) dividend expense, borrowing costs, and interest expense relating to short sales and (ii) investments in other investment companies, interest, taxes, brokerage commissions, expenses related to interest holders' meetings and extraordinary expenses) do not exceed 0.10%. The contractual fee waiver agreement also provides that UBS AM is entitled to be reimbursed for any fees it waives and expenses it reimburses to the extent such reimbursement can be made during the three years following the period during which such fee waivers and expense reimbursements were made, provided that the reimbursement of UBS AM by 100% US Treasury Master Fund will not cause such Master Fund to exceed the lesser of any applicable expense limit that is in place for such Master Fund (i) at the time of the waiver or reimbursement or (ii) at the time of the recoupment. The fee waiver/expense reimbursement agreement may be terminated by the Trust's board at any time and also will terminate automatically upon the expiration or termination of such Master Fund's management contract with UBS AM. Upon termination of the agreement, however, UBS AM's three year recoupment rights will survive.

At April 30, 2026, UBS AM waived the below amounts, which are subject to future renunciations which expire according to the dates below:

Fund	Fee waivers/expense reimbursements subject to repayment	Expires April 30, 2027	Expires April 30, 2028	Expires April 30, 2029
100% US Treasury Master Fund	\$1,345,536	\$54,171	\$452,014	\$839,351

* Includes \$8,370,789,961 attributed to the Plan of Reorganization pursuant to which Prime Master Fund transferred its assets to Prime CNAV Master Fund. Refer to the Reorganization of Funds in the notes to financial statements for further details.

Federal tax status

Each Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in a Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that each Master Fund's assets, income and distributions will be managed in such a way that an investor in a Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

Aggregate cost for federal income tax purposes was substantially the same for book purposes.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Funds have conducted an analysis and concluded, as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2026, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2026 and since inception for 100% US Treasury Master Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Master Trust

Notes to financial statements

Reorganization of Funds

Following the close of business on August 23, 2024, the Target Fund reorganized into the existing Destination Fund within the Trust. The reorganization into the existing Destination Fund was as follows:

Target Fund	Destination Fund
Prime Master Fund	Prime CNAV Master Fund

Pursuant to an Agreement and Plan of Reorganization, the Target Fund transferred all of its property and assets to the Destination Fund. In exchange, the Destination Fund assumed all of the liabilities of the Target Fund and issued a proportionate interest to the Target Fund, as described below. The reorganization was accomplished by a tax-free exchange of the net assets of the Target Fund for a proportionate interest of the Destination Fund outstanding following the close of business on August 23, 2024. The allocated cost basis of the investments received from the Target Fund were carried forward to align ongoing reporting of the related feeder funds' allocated realized and unrealized gains and losses with amounts distributable to feeder fund shareholders for tax purposes.

Target Fund	Destination Fund	Dollar Amount
Prime Master Fund	Prime CNAV Master Fund	\$8,370,789,961

The net assets of the Target Fund, including unrealized appreciation (depreciation), were combined with those of the Destination Fund. These amounts were as follows:

Target Fund	Target Fund Unrealized Appreciation (Depreciation)	Target Fund Net Assets	Destination Fund	Destination Fund Net Assets Prior to Reorganization	Net Assets After Reorganization
Prime Master Fund	\$(1,124,223)	\$8,370,789,961	Prime CNAV Master Fund	\$16,158,299,089	\$24,529,089,050

Master Trust

Report of independent registered public accounting firm

To the Interest holders and the Board of Trustees of Master Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Master Trust (the “Trust”), (comprising Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and 100% US Treasury Master Fund (collectively referred to as the “Funds”)), including the portfolios of investments, as of April 30, 2026, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Master Trust at April 30, 2026, the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting the Master Trust	Statement of operations	Statements of changes in net assets	Financial highlights
Government Master Fund Treasury Master Fund Prime CNAV Master Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the five years in the period ended April 30, 2026
100% US Treasury Master Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the two years in the period ended April 30, 2026, and the period from March 13, 2024 (commencement of operations) through April 30, 2024

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on each of the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and in accordance with the relevant ethical requirements relating to our audits.

We conducted our audits in accordance with the auditing standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst & Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

Master Trust

General information (unaudited)

Monthly portfolio holdings disclosure

The Master Funds file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. The Master Funds' reports on Form N-MFP are available on the SEC's Web site at <http://www.sec.gov>. The Master Funds make portfolio holdings information available to interest holders (and investors in the related feeder funds) on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. A more limited portfolio holdings report for each Master Fund is available on a weekly basis at the same Web address. Investors also may find additional information about the Master Funds at the above referenced UBS Website internet address.

Proxy voting policies, procedures and record

You may obtain a description of each Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Web site: <https://vds.issgovernance.com/vds/#/NDQx/FundFamily=322>, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

UBS Preferred Funds

Notes to financial statements

Organization and significant accounting policies

UBS Select Government Preferred Fund ("Government Preferred Fund"), UBS Select Treasury Preferred Fund ("Treasury Preferred Fund"), UBS Select 100% US Treasury Preferred Fund ("100% US Treasury Preferred Fund") and UBS Prime Preferred Fund ("Prime CNAV Preferred Fund") (each a "Fund", collectively, the "Funds") are each registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust"), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein.

100% US Treasury Preferred Fund currently offers Class T and Class P shares. Each class represents an interest in the same assets of the Fund, and the classes are identical except for minimum initial investment levels and that Class P shares are available only to certain types of investors.

Government Preferred Fund, Treasury Preferred Fund, 100% US Treasury Preferred Fund and Prime CNAV Preferred Fund are "feeder funds" that invest all of their investable assets in "master funds"—Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund and Prime CNAV Master Fund respectively (each a "Master Fund", collectively, the "Master Funds" and each a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder funds and their respective Master Funds have the same investment objectives.

Treasury Preferred Fund commenced operations on August 28, 2007, Prime CNAV Preferred Fund commenced operations on January 19, 2016, Government Preferred Fund commenced operations on June 28, 2016 and 100% US Treasury Preferred Fund commenced operations on March 13, 2024.

UBS Asset Management (Americas) LLC ("UBS AM") is the investment advisor and administrator for the Master Funds and the administrator for the feeder funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of each Fund is directly affected by the performance of the corresponding Master Fund. The value of such investment reflects each Fund's proportionate interest in the net assets of its corresponding Master Fund (52.82% for Government Preferred Fund, 56.64% for Treasury Preferred Fund, 54.64% for 100% US Treasury Preferred Fund and 39.00% for Prime CNAV Preferred Fund at April 30, 2026).

All of the net investment income and realized and unrealized gains and losses from investment activities of each Master Fund are allocated pro rata, based on respective ownership interests, among the corresponding Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Funds, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Funds' financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are

UBS Preferred Funds

Notes to financial statements

also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Funds adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). Adoption of the new standard impacts financial statement disclosures only and does not affect the Funds' financial position or the results of their operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Funds' portfolio management team acts as both the Master Funds' and Funds' CODM. Each of the Funds represents a single operating segment, as the CODM monitors the operating results of each Fund as a whole, and the Master Fund's long-term strategic asset allocation is pre-determined in accordance with the Fund's single investment objective which is executed by the Master Fund's portfolio managers as a team. The financial information in the form of the Master Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Fund's comparative benchmarks and to make resource allocation decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments—Each Fund records its investment in its corresponding Master Fund at fair value. Securities held by the Master Funds are valued as indicated in the Master Funds' Notes to financial statements, which are included elsewhere in this report.

Constant net asset value per share—Each of the Funds attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Funds will be able to maintain a stable net asset value of \$1.00 per share. The Funds have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable each to do so. Government Preferred Fund, Treasury Preferred Fund and 100% US Treasury Preferred Fund have adopted a policy to operate as "government money market funds". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As "government money market funds", Government Preferred Fund, Treasury Preferred Fund and 100% US Treasury Preferred Fund are permitted to seek to maintain a stable price per share. Prime CNAV Preferred Fund operates as a "retail money market fund". Under Rule 2a-7, a "retail money market fund" is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As a "retail money market fund", Prime CNAV Preferred Fund is permitted to seek to maintain a stable price per share.

Liquidity fee—Consistent with Rule 2a-7, Prime CNAV Preferred Fund may be subject to the possible imposition of a liquidity fee under certain circumstances. Prime CNAV Master Fund may impose a fee upon the sale of your shares of the related feeder fund. For the period ended April 30, 2026, Prime CNAV Preferred Fund was not subject to any liquidity fees.

By operating as "government money market funds", Government Preferred Fund, Treasury Preferred Fund and 100% US Treasury Preferred Fund are exempt from requirements that permit the imposition of a liquidity fee. While the Funds' Board of Trustees (the "Board") may elect to subject Government Preferred Fund, Treasury Preferred Fund and 100% US Treasury Preferred Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

UBS Preferred Funds

Notes to financial statements

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as the administrator to each Fund pursuant to an Administration Agreement approved by the Trust’s board. In accordance with the Administration Agreement, each Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of each Fund’s average daily net assets:

Fund	Administration fee
Government Preferred Fund	0.08%
Treasury Preferred Fund	0.08
100% US Treasury Preferred Fund	0.08
Prime CNAV Preferred Fund	0.08

At April 30, 2026, each Fund owed UBS AM for administrative services as follows:

Fund	Amounts owed to UBS AM
Government Preferred Fund	\$739,007
Treasury Preferred Fund	1,409,361
100% US Treasury Preferred Fund	75,779
Prime CNAV Preferred Fund	568,162

In exchange for these fees, UBS AM has agreed to bear all of the Funds’ (with the exception of the 100% US Treasury Preferred Fund’s) expenses other than interest, taxes, extraordinary costs and the cost of securities purchased and sold by the Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Funds’ independent trustees, it is contractually obligated to reduce its fee in an amount equal to those fees and expenses. UBS AM estimates that the independent trustees’ fees and expenses will be 0.01% or less of each Fund’s average daily net assets, and that the amounts disclosed in the table above for accrued administration fees are net of independent trustees’ fees and expenses previously paid. At April 30, 2026, UBS AM did not owe the Funds any additional reductions in administration fees for independent trustees’ fees and expenses.

With respect to 100% US Treasury Preferred Fund, such Fund will bear all expenses not specifically assumed by UBS AM incurred in its operations and the offering of its shares. This Fund and UBS AM have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its management fees and/or reimburse the Fund so that the Fund’s operating expenses through August 31, 2026 (excluding interest expense, if any, expenses related to shareholders’ meetings and extraordinary items) would not exceed 0.14%. The Fund has agreed to repay UBS AM for any waived management fees/reimbursed expenses to the extent that it can do so over the three years following such waived fees/reimbursed expenses without causing the Fund’s expenses in any of those three years to exceed the lesser of any applicable expense limit that is in place for the Fund (i) at the time of the waiver or reimbursement, or (ii) at the time of recoupment. The fee waiver/expense reimbursement agreement may be terminated by the Fund’s board at any time and also will terminate automatically

UBS Preferred Funds

Notes to financial statements

upon the expiration or termination of the Fund's contract with UBS AM. Upon termination of the agreement, however, UBS AM's three year recoupment rights will survive.

The remaining Funds (that is, other than 100% US Treasury Preferred Fund) and UBS AM have entered into a written fee waiver agreement pursuant to which UBS AM is contractually obligated to waive its administration fees so that the total ordinary operating expenses of the Funds do not exceed 0.14% through August 31, 2026 for each of the funds. The fee waiver agreement may be terminated by the Funds' Board at any time and also will terminate automatically upon the expiration or termination of the Funds' contract with UBS AM. At April 30, 2026, taking both fee waiver arrangements mentioned above into account, UBS AM owed (or was owed by) the Funds and for the period ended April 30, 2026, UBS AM was contractually obligated to waive, as follows, and such waived amounts are not subject to future recoupment, except with respect to 100% US Treasury Preferred Fund:

Fund	Amount owed by UBS AM	Amounts waived by UBS AM
Government Preferred Fund	\$419,099	\$5,609,382
Treasury Preferred Fund	733,273	9,266,069
100% US Treasury Preferred Fund	47,605	3,597,604
Prime CNAV Preferred Fund	309,183	4,062,937

At April 30, 2026, UBS AM waived the below amounts, which are subject to future recoupments which expire according to the dates below:

Fund	Fee waivers/ expense reimbursements subject to repayment	Expires April 30, 2027	Expires April 30, 2028	Expires April 30, 2029
UBS Select 100% US Treasury Preferred Fund—Class P	\$ 397,293	\$ 7,413	\$ 146,034	\$ 243,846
UBS Select 100% US Treasury Preferred Fund—Class T	5,372,803	29,136	1,989,909	3,353,758

In addition, UBS AM may voluntarily undertake to waive fees, including in the event that the Funds' yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. At April 30, 2026, there were no amounts owed by UBS AM for this undertaking.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, for each of the Funds for the periods ended April 30, 2026 and April 30, 2025 were as follows:

Government Preferred Fund

	For the years ended April 30,	
	2026	2025
Shares sold	55,914,754,084	75,663,121,190

Class T	For the years ended April 30,	
	2026	2025
Shares sold	14,160,916,091	9,052,019,532
Shares repurchased	(9,005,597,726)	(5,913,042,170)
Dividends reinvested	234,606,965	106,076,881
Net increase (decrease) in beneficial interest	5,389,925,330	3,245,054,243

¹. Commencement of operation.

Prime CNAV Preferred Fund

	For the years ended April 30,	
	2026	2025
Shares sold	16,489,396,059	23,861,363,029*
Shares repurchased	(18,613,936,613)	(19,447,694,029)
Dividends reinvested	399,944,806	435,751,400
Net increase (decrease) in beneficial interest	(1,724,595,748)	4,849,420,400

* Includes \$3,182,235,477 attributed to the Plan of Reorganization pursuant to which UBS Select Prime Preferred Fund transferred its assets to UBS Prime Preferred Fund. Refer to the Reorganization of Fund in the notes to financial statements for further details.

Federal tax status

Each Fund intends to distribute substantially all of its taxable income and to comply with all the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, each Fund intends not to be subject to a federal excise tax.

UBS Preferred Funds

Notes to financial statements

The tax character of distributions paid to shareholders by the Funds during the fiscal years ended April 30, 2026 and April 30, 2025 were as follows:

Fund	2026		2025	
	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	Distributions paid from ordinary income	Distributions paid from net long-term capital gains
Government Preferred Fund	\$549,787,944	\$—	\$ 736,626,917	\$—
Treasury Preferred Fund	909,807,094	—	1,048,056,046	—
100% US Treasury Preferred Fund	270,186,828	—	128,469,815	—
Prime CNAV Preferred Fund	409,797,296	—	460,213,545	—

At April 30, 2026, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
Government Preferred Fund	\$35,603,004	\$291,733	\$ —	\$—	\$(35,554,860)	\$339,877
Treasury Preferred Fund	63,866,081	452,232	—	—	(63,526,061)	792,252
100% US Treasury Preferred Fund	27,205,582	84,639	—	—	(27,090,925)	199,296
Prime CNAV Preferred Fund	27,577,292	—	(32,918)	—	(27,577,279)	(32,905)

Net capital losses recognized by the Funds may be carried forward indefinitely, and retain their character as short term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed.

At April 30, 2026, the following Fund had net capital losses that will be carried forward indefinitely, as follows:

Fund	Short-term losses	Long-term losses	Net capital losses
Government Preferred Fund	\$ —	\$—	\$ —
Treasury Preferred Fund	—	—	—
100% US Treasury Preferred Fund	—	—	—
Prime CNAV Preferred Fund	32,918	—	32,918

During the fiscal year ended April 30, 2026, Prime CNAV Preferred Fund utilized capital loss carryforwards of \$108.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Funds have conducted an analysis and concluded as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2026, the Funds did not incur any interest or penalties.

The income generated by the Government Preferred Fund and 100% US Treasury Preferred Fund is entirely classified as Qualified Interest Income ("QII"). According to Section 871(k) of the Internal Revenue Code, QII enables interest income from U.S. government securities and eligible instruments to be distributed without being subject to U.S. withholding tax.

UBS Preferred Funds

Notes to financial statements

Each of the tax years in the four year period ended April 30, 2026, and since inception for the 100% US Treasury Preferred Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Reorganization of Funds

Following the close of business on August 23, 2024, the Target Fund reorganized into the existing Destination Fund within the Trust. The reorganization into the existing Destination Fund was as follows:

Target Fund	Destination Fund
UBS Select Prime Preferred Fund	UBS Prime Preferred Fund

Pursuant to an Agreement and Plan of Reorganization, the Target Fund transferred all of its property and assets to the Destination Fund. In exchange, the Destination Fund assumed all of the liabilities of the Target Fund and issued a proportionate interest to the Target Fund, as described below. The reorganization was accomplished by a tax-free exchange of the net assets of the Target Fund for a proportionate interest of the Destination Fund outstanding following the close of business on August 23, 2024. The allocated cost basis of the investments received from the Target Fund were carried forward to align ongoing reporting of the related feeder funds' allocated realized and unrealized gains and losses with amounts distributable to feeder fund shareholders for tax purposes.

Target Fund	Fund Shares	Destination Fund	Destination Fund Shares	Dollar Amount	Exchange Ratio ^(A)
UBS Select Prime Preferred Fund	3,182,571,524	UBS Prime Preferred Fund	3,182,235,477	\$3,182,235,477	1.00

^(A) Calculated by dividing the Destination Fund shares issuable by the Target Fund shares outstanding on Reorganization Date.

The net assets of the Target Fund, including unrealized appreciation (depreciation), were combined with those of the Destination Fund. These amounts were as follows:

Target Fund	Target Fund Unrealized Appreciation (Depreciation)	Target Fund Net Assets	Destination Fund	Destination Fund Net Assets Prior to Reorganization	Net Assets After Reorganization
UBS Select Prime Preferred Fund	\$463,111	\$3,182,381,805	UBS Prime Preferred Fund	\$7,553,528,357	\$10,735,910,162

UBS Preferred Funds

Report of independent registered public accounting firm

To the Shareholders of UBS Select Government Preferred Fund, UBS Select Treasury Preferred Fund, UBS Select 100% US Treasury Preferred Fund, and UBS Prime Preferred Fund and the Board of Trustees of UBS Series Funds

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of UBS Select Government Preferred Fund, UBS Select Treasury Preferred Fund, UBS Select 100% US Treasury Preferred Fund, and UBS Prime Preferred Fund (collectively referred to as the "Funds") (four of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2026, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds (four of the funds comprising the Trust) at April 30, 2026, and the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting UBS Series Funds	Statement of operations	Statements of changes in net assets	Financial highlights
UBS Select Government Preferred Fund UBS Select Treasury Preferred Fund UBS Prime Preferred Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the five years in the period ended April 30, 2026
UBS Select 100% US Treasury Preferred Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the two years in the period ended April 30, 2026 and the period from March 13, 2024 (commencement of operations) through April 30, 2024

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Funds. Investors in the related "feeder funds" should instead focus on separate expense information relevant to the particular feeder funds; the expense information for the feeder funds will reflect their proportionate share of the corresponding Master Funds' expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. These examples are intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The examples below are based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2025 to April 30, 2026.

Actual expenses

The first line in the table below for each Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for each Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for each Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2025	Ending account value April 30, 2026	Expenses paid during period 11/01/25 to 04/30/26 ¹	Expense ratio during the period
Government Master Fund				
Actual	\$1,000.00	\$1,022.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Treasury Master Fund				
Actual	\$1,000.00	\$1,022.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
100% US Treasury Master Fund				
Actual	\$1,000.00	\$1,021.80	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10
Prime CNAV Master Fund				
Actual	\$1,000.00	\$1,022.50	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

Net assets—100.0%		\$24,161,264,346

For a listing of defined portfolio acronyms that are used throughout the Portfolio of investments as well as the tables that follow, please refer to the Glossary of terms used in the Portfolio of investments.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 11,220,473,846	\$—	\$ 11,220,473,846
U.S. Treasury obligations	—	4,941,415,451	—	4,941,415,451
Repurchase agreements	—	7,748,000,000	—	7,748,000,000
Total	\$—	\$23,909,889,297	\$—	\$23,909,889,297

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio of investments—April 30, 2026

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

³ Rate shown reflects yield at April 30, 2026.

⁴ Investment has a put feature, which allows the Master Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2026 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Master Fund if the put feature was exercised as of April 30, 2026.

Treasury Master Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. Treasury obligations	\$—	\$ 24,473,622,393	\$—	\$ 24,473,622,393
Repurchase agreements	—	15,130,000,000	—	15,130,000,000
Total	\$—	\$39,603,622,393	\$—	\$39,603,622,393

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Rate shown reflects yield at April 30, 2026.

² Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

100% US Treasury Master Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active market for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. Treasury obligations	\$—	\$ 17,354,415,416	\$—	\$ 17,354,415,416
Total	\$—	\$17,354,415,416	\$—	\$17,354,415,416

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Rate shown reflects yield at April 30, 2026.

² Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

For a listing of defined portfolio acronyms that are used throughout the Portfolio of investments as well as the tables that follow, please refer to the Glossary of terms used in the Portfolio of investments.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
Certificates of deposit	\$—	\$ 1,993,999,930	\$—	\$ 1,993,999,930
Commercial paper	—	10,958,690,888	—	10,958,690,888
Time deposits	—	1,032,000,000	—	1,032,000,000
Repurchase agreements	—	8,909,700,000	—	8,909,700,000
Total	\$—	\$22,894,390,818	\$—	\$22,894,390,818

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Prime CNAV Master Fund

Portfolio of investments—April 30, 2026

Portfolio footnotes

- ¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.
- ² Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Securities exempt from registration pursuant to Rule 144A, in the amount of \$9,401,841,067, represented 40.3% of the Master Fund's net assets at period end.
- ³ Investment has a put feature, which allows the Master Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2026 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Master Fund if the put feature was exercised as of April 30, 2026.

Master Trust

Notes to financial statements

Organization and significant accounting policies

Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund (each a “Master Fund”, collectively, the “Master Funds”) are each registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. The Trust is a series mutual fund with four series.

Treasury Master Fund commenced operations on August 28, 2007. Prime CNAV Master Fund commenced operations on January 19, 2016, Government Master Fund commenced operations on June 24, 2016, and 100% US Treasury Master Fund commenced operations on March 13, 2024.

UBS Asset Management (Americas) LLC (“UBS AM”) is the investment advisor and administrator for the Master Funds. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

Each Master Fund may issue any number of interests and each interest shall have a par value of \$0.001 per interest. The interests of a Master Fund shall represent a proportional beneficial interest in the net assets belonging to that series. Each holder of interests of a Master Fund shall be entitled to receive his or her pro rata share of all distributions made with respect to such Master Fund according to the investor’s ownership percentage of such Master Fund on the record date established for payment. Upon redemption of interests, an investor shall be paid solely out of the assets and property of such Master Fund. Beneficial interests in the Master Funds are not registered under the Securities Act of 1933, as amended, since such interests are issued in private placement transactions.

In the normal course of business, the Master Funds may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Funds that have not yet occurred. However, the Master Funds have not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Funds’ financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The Funds are investment companies and apply the guidance in FASB ASC Topic 946—Financial Services—Investment Companies.

The Master Funds adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Master Funds’ financial position or the results of their operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Funds’ portfolio management team acts as the Master Funds’ CODM. Each of the Master Funds represents a single operating segment, as the CODM monitors the operating results of each Master Fund as a whole, and the Master Fund’s long-term strategic asset allocation is pre-determined in

Master Trust

Notes to financial statements

accordance with the Master Fund's single investment objective which is executed by the Master Fund's portfolio managers as a team. The financial information in the form of the Master Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Master Fund's comparative benchmarks and to make resource allocation decisions for the Master Fund's single segment, is consistent with that presented within the Master Fund's financial statements. Segment assets are reflected on the accompanying Statements of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying Statements of operations.

The following is a summary of significant accounting policies:

Valuation of investments

Under Rule 2a-7, Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund have adopted certain policies that enable them to use the amortized cost method of valuation. Government Master Fund, Treasury Master Fund and 100% US Treasury Master Fund, have adopted a policy to operate as "government money market funds". Under Rule 2a-7, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). Prime CNAV Master Fund operates as a "retail money market fund". Under Rule 2a-7, a "retail money market fund" is a money market fund that has policies and procedures reasonably designed to limit all beneficial owners of the fund to natural persons. As "government money market funds" and as a "retail money market fund", Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund value their investments at amortized cost unless UBS AM, as the valuation designee appointed by Master Trust's Board of Trustees (the "Board") pursuant to Rule 2a-5 under the 1940 Act, determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund, Treasury Master Fund, 100% US Treasury Master Fund, and Prime CNAV Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the "VC") to assist with its designated responsibilities as valuation designee with respect to the Master Funds' portfolios of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Master Fund's portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

Each Master Fund's portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund's beneficial interests are priced. Pursuant to each Master Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company's prospectus or similar documents.

Master Trust

Notes to financial statements

US GAAP requires disclosure regarding the various inputs that are used in determining the value of each Master Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of each Master Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of each Master Fund's Portfolio of investments.

Liquidity fee—Consistent with Rule 2a-7, the Board is permitted to impose a liquidity fee on redemptions from Prime CNAV Master Fund under certain circumstances. Liquidity fees would reduce the amount an interest holder receives upon redemption of its beneficial interests. Prime CNAV Master Fund retains the liquidity fees for the benefit of its remaining interest holders. For the period ended April 30, 2026, the Board of Prime CNAV Master Fund did not impose any liquidity fees.

By operating as "government money market funds", Government Master Fund, Treasury Master Fund and 100% US Treasury Master Fund are exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject Government Master Fund, Treasury Master Fund and 100% US Treasury Master Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—Each Master Fund (except 100% US Treasury Master Fund) may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. Such Master Funds maintain custody of the purchased securities prior to their repurchase, either through their regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Master Funds and their counterparty (in either case, in accordance with the 1940 Act).

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Master Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Master Fund and the clearing member through which the Master Fund's transaction was effected. The Master Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Master Funds generally have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by

Master Trust

Notes to financial statements

obligations that are not eligible for direct investment under Rule 2a-7 or a fund's investment strategies and limitations may require the Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Master Funds may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. Each such Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The relevant Master Funds may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Government Master Fund, Treasury Master Fund and Prime CNAV Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, a Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Funds to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to each Master Fund pursuant to an investment advisory and administration contract ("Management Contract") approved by the Board. In accordance with the Management Contract, each Master Fund pays UBS AM an investment advisory and administration fee ("management fee"), which is accrued daily and paid monthly, at the below annual rates, as a percentage of each Master Fund's average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

Master Trust

Notes to financial statements

At April 30, 2026, the Master Funds owed UBS AM for investment advisory and administration services, net of waivers (if any), as follows:

Fund	Amount owed to UBS AM
Government Master Fund	\$1,941,245
Treasury Master Fund	3,134,126
100% US Treasury Master Fund	1,253,551
Prime CNAV Master Fund	1,889,282

In exchange for these fees, for each Master Fund except 100% US Treasury Master Fund, UBS AM has agreed to bear all of the Master Funds' expenses other than interest (except interest on borrowings), taxes, extraordinary costs and the cost of securities purchased and sold by such Master Funds, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of such Master Funds' independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be less than 0.01% of each Master Fund's average daily net assets.

With respect to 100% US Treasury Master Fund, such Master Fund will bear all expenses not specifically assumed by UBS AM incurred in its operations and the offering of its shares. UBS AM has contractually agreed to waive its management fees and/or reimburse expenses so that this Master Fund's ordinary total operating expenses through August 31, 2026 (excluding, as applicable, (i) dividend expense, borrowing costs, and interest expense relating to short sales and (ii) investments in other investment companies, interest, taxes, brokerage commissions, expenses related to interest holders' meetings and extraordinary expenses) do not exceed 0.10%. The contractual fee waiver agreement also provides that UBS AM is entitled to be reimbursed for any fees it waives and expenses it reimburses to the extent such reimbursement can be made during the three years following the period during which such fee waivers and expense reimbursements were made, provided that the reimbursement of UBS AM by 100% US Treasury Master Fund will not cause such Master Fund to exceed the lesser of any applicable expense limit that is in place for such Master Fund (i) at the time of the waiver or reimbursement or (ii) at the time of the recoupment. The fee waiver/expense reimbursement agreement may be terminated by the Trust's board at any time and also will terminate automatically upon the expiration or termination of such Master Fund's management contract with UBS AM. Upon termination of the agreement, however, UBS AM's three year recoupment rights will survive.

At April 30, 2026, UBS AM waived the below amounts, which are subject to future renunciations which expire according to the dates below:

Fund	Fee waivers/expense reimbursements subject to repayment	Expires April 30, 2027	Expires April 30, 2028	Expires April 30, 2029
100% US Treasury Master Fund	\$1,345,536	\$54,171	\$452,014	\$839,351

* Includes \$8,370,789,961 attributed to the Plan of Reorganization pursuant to which Prime Master Fund transferred its assets to Prime CNAV Master Fund. Refer to the Reorganization of Funds in the notes to financial statements for further details.

Federal tax status

Each Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in a Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that each Master Fund's assets, income and distributions will be managed in such a way that an investor in a Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

Aggregate cost for federal income tax purposes was substantially the same for book purposes.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Funds have conducted an analysis and concluded, as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Master Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2026, the Funds did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2026 and since inception for 100% US Treasury Master Fund, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Notes to financial statements

Reorganization of Funds

Following the close of business on August 23, 2024, the Target Fund reorganized into the existing Destination Fund within the Trust. The reorganization into the existing Destination Fund was as follows:

Target Fund	Destination Fund
Prime Master Fund	Prime CNAV Master Fund

Pursuant to an Agreement and Plan of Reorganization, the Target Fund transferred all of its property and assets to the Destination Fund. In exchange, the Destination Fund assumed all of the liabilities of the Target Fund and issued a proportionate interest to the Target Fund, as described below. The reorganization was accomplished by a tax-free exchange of the net assets of the Target Fund for a proportionate interest of the Destination Fund outstanding following the close of business on August 23, 2024. The allocated cost basis of the investments received from the Target Fund were carried forward to align ongoing reporting of the related feeder funds' allocated realized and unrealized gains and losses with amounts distributable to feeder fund shareholders for tax purposes.

Target Fund	Destination Fund	Dollar Amount
Prime Master Fund	Prime CNAV Master Fund	\$8,370,789,961

The net assets of the Target Fund, including unrealized appreciation (depreciation), were combined with those of the Destination Fund. These amounts were as follows:

Target Fund	Target Fund Unrealized Appreciation (Depreciation)	Target Fund Net Assets	Destination Fund	Destination Fund Net Assets Prior to Reorganization	Net Assets After Reorganization
Prime Master Fund	\$(1,124,223)	\$8,370,789,961	Prime CNAV Master Fund	\$16,158,299,089	\$24,529,089,050

Master Trust

Report of independent registered public accounting firm

To the Interest holders and the Board of Trustees of Master Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of Master Trust (the "Trust"), (comprising Government Master Fund, Treasury Master Fund, Prime CNAV Master Fund, and 100% US Treasury Master Fund (collectively referred to as the "Funds")), including the portfolios of investments, as of April 30, 2026, and the related statements of operations and changes in net assets, and the financial highlights for each of the periods indicated in the table below and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds comprising Master Trust at April 30, 2026, the results of their operations, changes in net assets and financial highlights for each of the periods indicated in the table below, in conformity with U.S. generally accepted accounting principles.

Individual fund constituting the Master Trust	Statement of operations	Statements of changes in net assets	Financial highlights
Government Master Fund Treasury Master Fund Prime CNAV Master Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the five years in the period ended April 30, 2026
100% US Treasury Master Fund	For the year ended April 30, 2026	For each of the two years in the period ended April 30, 2026	For each of the two years in the period ended April 30, 2026, and the period from March 13, 2024 (commencement of operations) through April 30, 2024

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and in accordance with the relevant ethical requirements relating to our audits.

We conducted our audits in accordance with the auditing standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more UBS investment companies since 1978.

Master Trust

General information (unaudited)

Monthly portfolio holdings disclosure

The Master Funds file their complete schedules of portfolio holdings with the US Securities and Exchange Commission ("SEC") each month on Form N-MFP. The Master Funds' reports on Form N-MFP are available on the SEC's Web site at <http://www.sec.gov>. The Master Funds make portfolio holdings information available to interest holders (and investors in the related feeder funds) on UBS's Web site at the following internet address: www.ubs.com/usmoneymarketfunds. A more limited portfolio holdings report for each Master Fund is available on a weekly basis at the same Web address. Investors also may find additional information about the Master Funds at the above referenced UBS Website internet address.

Proxy voting policies, procedures and record

You may obtain a description of each Fund's (1) proxy voting policies, (2) proxy voting procedures and (3) information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-800-647 1568, online on the Fund's Web site: <https://vds.issgovernance.com/vds/#/NDQx/FundFamily=322>, or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

Limited Purpose Cash Investment Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Fund's investments. In the event a fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active market for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 832,473,839	\$—	\$ 832,473,839
U.S. Treasury obligations	—	5,937,706,622	—	5,937,706,622
Repurchase agreements	—	3,909,000,000	—	3,909,000,000
Total	\$—	\$10,679,180,461	\$—	\$10,679,180,461

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

³ Rate shown reflects yield at April 30, 2026.

Supplemental data:					
Net assets, end of year (000's)	\$10,643,783	\$8,636,919	\$5,645,976	\$5,535,344	\$5,249,952

¹ Effective after the close of business on November 14, 2025, the Fund underwent a reverse share split. The shares have been retroactively adjusted to reflect the share split. See the Stock Split section of the Notes to Financial Statements for more information.

² Amount represents less than \$0.00005 or \$(0.00005) per share.

³ Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

See accompanying notes to financial statements.

Limited Purpose Cash Investment Fund

Notes to financial statements

Organization and significant accounting policies

Limited Purpose Cash Investment Fund (the "Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust") an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein. The Fund commenced operations on April 11, 2017.

UBS Asset Management (Americas) LLC ("UBS AM") is the investment advisor and administrator for the Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series' operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). Adoption of the new standard impacts financial statement disclosures only and does not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Fund's portfolio management team acts as the Fund's CODM. The Fund represents a single operating segment, as the CODM monitors the operating results of the Fund as a whole, and the Fund's long-term strategic asset allocation is pre-determined in accordance with the Fund's single investment objective which is executed by the Fund's portfolio managers as a team. The financial information in the form of the Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Fund's comparative benchmarks and to make resource allocation decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying statement of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying statement of operations.

This Fund is privately offered, and its shares are not registered under the Securities Act of 1933, as amended ("1933 Act").

Limited Purpose Cash Investment Fund

Notes to financial statements

The following is a summary of significant accounting policies:

Valuation of investments—Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), the Fund has adopted certain policies that enables it to use the amortized cost method of valuation. The Fund has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a “government money market fund” invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market fund”, the Fund values its investments at amortized cost unless UBS AM, as the valuation designee appointed by the Fund’s Board of Trustees (the “Board”) pursuant to Rule 2a-5 under the 1940 Act, determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the “VC”) to assist with its designated responsibilities as valuation designee with respect to the Fund’s portfolio of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value a Fund’s portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment’s fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund’s investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Fund’s own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Fund’s Portfolio of investments.

Constant net asset value per share—The Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund has adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable it to do so. The Fund has adopted a policy to operate as a “government money market fund” and as such the Fund is permitted to seek to maintain a stable price per share.

Liquidity fee—By operating as a “government money market fund”, the Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject the Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Limited Purpose Cash Investment Fund

Notes to financial statements

Repurchase agreements—The Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller's agreement to repurchase them at an agreed upon date (or upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. The Fund maintains custody of the purchased securities prior to their repurchase, either through its regular custodian or through a special "tri-party" custodian or sub-custodian that maintains a separate account for both the Fund and its counterparty (in either case, in accordance with the 1940 Act). The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Fund and the clearing member through which the Fund's transaction was effected. The Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by obligations that are not eligible for direct investment under the Fund's investment strategies and limitations, may require the Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller's guarantor, if any) becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. The Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Under certain circumstances, the Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in the Fund at the end of the day in order to avoid having the Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Limited Purpose Cash Investment Fund

Notes to financial statements

Concentration of risk—The ability of the issuers of the debt securities held by the Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator and other transactions with affiliates

The Fund's Board of Trustees has approved an investment advisory and administration contract (the "Advisory Contract") with UBS AM, under which UBS AM serves as investment advisor and administrator of the Fund. In accordance with the Advisory Contract, the Fund pays UBS AM an investment advisory and administration fee, which is accrued daily and paid monthly. UBS AM's contract fee for the advisory and administration services it provides to the Fund is 0.12% of the Fund's average daily net assets. At April 30, 2026, UBS AM is owed \$1,042,644 by the Fund, representing investment advisory and administration fees.

The Fund and UBS AM have entered into a written fee waiver agreement pursuant to which UBS AM is contractually obligated to waive its management fees so that the total ordinary operating expenses of the Fund through August 31, 2026 do not exceed 0.06%. The fee waiver agreement may be terminated by the Fund's board at any time and also will terminate automatically upon the expiration or termination of the Fund's contract with UBS AM. For the period ended April 30, 2026, UBS AM waived \$5,809,007 in investment advisory and administration fees; such amount is not subject to future recoupment. At April 30, 2026, UBS AM owed the Fund \$551,538 in fee waivers. The amount owed by or (owed to) UBS AM is shown at a net level on the statement of assets and liabilities.

In exchange for these fees, UBS AM has agreed to bear all of the Fund's expenses other than interest, taxes, extraordinary costs and the cost of securities purchased and sold by the Fund, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Fund's independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that the independent trustees' fees and expenses will be 0.01% or less of the Fund's average daily net assets, and that the amount disclosed in the paragraph above for accrued advisory and administration fees is net of independent trustees' fees and expenses previously paid. At April 30, 2026, UBS AM did not owe the Fund any additional reductions in management fees for independent trustees' fees and expenses.

UBS AM may also voluntarily waive fees/reimburse expenses in the event that Fund yields drop below a certain level. This additional undertaking is voluntary and not contractual and may be terminated at any time. For the period ended April 30, 2026, the Fund did not have this additional waiver.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, for which the NAV per share fluctuated prior to November 17, 2025, were as follows:

	For the year ended April 30, 2026		For the year ended April 30, 2025	
	Shares ¹	Amount	Shares ¹	Amount
Shares sold	63,548,387,433	\$ 63,547,782,850	37,452,767,215	\$ 37,451,070,290
Shares repurchased	(61,725,307,518)	(61,724,646,192)	(34,598,082,403)	(34,596,538,214)
Dividends reinvested	184,030,195	184,027,226	136,031,561	136,021,821
Net increase (decrease)	2,007,110,110	\$ 2,007,163,884	2,990,716,373	\$ 2,990,553,897

¹ Effective after the close of business on November 14, 2025, the Fund underwent a reverse share split. The shares have been retroactively adjusted to reflect the share split. See the Stock Split section of the Notes to Financial Statements for more information.

Limited Purpose Cash Investment Fund

Notes to financial statements

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid to shareholders by the Fund during the fiscal years ended April 30, 2026 and April 30, 2025, was ordinary income in the amount of \$384,216,175 and \$271,607,217, respectively.

At April 30, 2026, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
\$32,973,747	\$—	\$(42,014)	\$—	\$(32,973,747)	\$(42,014)

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. At April 30, 2026, the Fund had capital loss carryforwards of \$42,014 in short-term capital losses.

During the fiscal year ended April 30, 2026, the Fund utilized capital loss carryforwards to offset current year realized gains of \$174,081.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. It is the Fund's policy to record any significant foreign tax exposures on the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2026, the Fund did not incur any interest or penalties.

The income generated by Limited Purpose Cash Investment Fund is entirely classified as Qualified Interest Income ("QII"). According to Section 871(k) of the Internal Revenue Code, QII enables interest income from U.S. government securities and eligible instruments to be distributed without being subject to U.S. withholding tax.

Each of the tax years in the four year period ended April 30, 2026, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Stock Split

After the close of business on November 14, 2025, the Fund engaged in a 1 for 1.0003 reverse share split in order to bring the Fund's net asset value per share to \$1.0000 immediately prior to the Fund converting to using the amortized cost method of valuation in order to seek to maintain a stable \$1.00 net asset value per share (the "Conversion"). The Conversion became effective on November 17, 2025; the Conversion facilitated the introduction of multiple daily pricing times.

To the Shareholders and the Board of Trustees of Limited Purpose Cash Investment Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Limited Purpose Cash Investment Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), including the portfolio of investments, as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and in accordance with the relevant ethical requirements relating to our audits.

We conducted our audits in accordance with the auditing standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a stylized, cursive script. The words "Ernst & Young" are in a larger, more decorative font, and "LLP" is in a smaller, simpler font to the right.

We have served as the auditor of one or more UBS investment companies since 1978.

UBS Ultra Short Income Fund

Portfolio of investments—April 30, 2026

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Fund's investments. In the event a Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active market for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
Asset-backed securities	\$ —	\$ 44,804,993	\$—	\$ 44,804,993
Commercial paper	—	22,646,788	—	22,646,788
Corporate bonds	—	225,013,880	—	225,013,880
Short-term investments	985,052	—	—	985,052
Investment of cash collateral from securities loaned	2,045,000	—	—	2,045,000
Total	\$3,030,052	\$292,465,661	\$—	\$295,495,713

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. Securities exempt from registration pursuant to Rule 144A, in the amount of \$116,371,909, represented 39.2% of the Fund's net assets at period end.

² Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

³ Security, or portion thereof, was on loan at the period end.

⁴ Rate shown reflects yield at April 30, 2026.

Net increase (decrease) from operations	0.42	0.50	0.55	0.20	(0.06)
Dividends from net investment income	(0.42)	(0.49)	(0.51)	(0.29)	(0.03)
Distributions from net realized gains	—	—	(0.01)	(0.01)	(0.00) ²
Total dividends and distributions	(0.42)	(0.49)	(0.52)	(0.30)	(0.03)
Net asset value, end of year	\$9.82	\$9.82	\$9.81	\$9.78	\$9.88
Total investment return³	4.42%	5.22%	5.77%	2.05%	(0.63)%
Ratios to average net assets:					
Expenses before fee waivers and/or expense reimbursements	0.44% ⁴	0.42%	0.40%	0.34%	0.33% ⁴
Expenses after fee waivers and/or expense reimbursements	0.23% ⁴	0.23%	0.23%	0.23%	0.23% ⁴
Net investment income (loss)	4.26%	4.96%	5.27%	0.79%	0.23%
Supplemental data:					
Net assets, end of year (000's)	\$91	\$87	\$83	\$78	\$49,811
Portfolio turnover	56%	84%	41%	72%	56%

¹ Calculated using the average shares method.

² Amount represents less than \$0.005 or \$(0.005) per share.

³ Total investment return is calculated assuming a \$10,000 investment on the first day of the period reported, reinvestment of all dividends and other distributions, if any, at net asset value on the ex-dividend dates, and a sale at net asset value on the last day of the period reported. Total investment return for the period of less than one year has not been annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

⁴ Includes interest expense representing less than 0.005%.

⁵ Due to substantial redemptions of Class I shares of the Fund during the year and fluctuating market values, these numbers would differ if presented utilizing another acceptable financial reporting method other than the average shares method that was used to calculate per share amounts. If such other acceptable method had been used, "Net investment income" would have been \$0.27 per share and "Net realized and unrealized loss" would have been \$(0.07) per share.

See accompanying notes to financial statements.

UBS Ultra Short Income Fund

Notes to financial statements

Organization and significant accounting policies

UBS Ultra Short Income Fund (the "Fund") is registered with the US Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended ("1940 Act"), as a diversified series of UBS Series Funds (the "Trust"), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein.

UBS Asset Management (Americas) LLC ("UBS AM" or the "Advisor"), serves as the investment advisor and administrator for the Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The Fund currently offers Class A, Class P and Class I shares. Each class represents interests in the same assets of the Fund, and the classes are identical except for differences in ongoing service fees and certain transfer agency and related services expenses and certain fee waiver/expense reimbursement/cap arrangements as discussed further below as well as investor eligibility requirements. All classes of shares have equal voting privileges except that Class A shares have exclusive voting rights with respect to its service plan.

In the normal course of business the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") is the exclusive reference of authoritative US generally accepted accounting principles ("US GAAP") recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* ("ASU 2023-07"). Adoption of the new standard impacts financial statement disclosures only and does not affect the Fund's financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity's chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Fund's portfolio management team acts as the Fund's CODM. The Fund represents a single operating segment, as the CODM monitors the operating results of the Fund as a whole, and the Fund's long-term strategic asset allocation is pre-determined in accordance with the Fund's single investment objective which is executed by the Fund's portfolio managers as a team. The financial information in the form of the Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Fund's comparative benchmarks and to make resource allocation decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Investment transactions, investment income and expenses—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions and foreign exchange transactions are calculated using

UBS Ultra Short Income Fund

Notes to financial statements

the identified cost method. Dividend income and expense are recorded on the ex-dividend date ("ex-date") except in the case of certain dividends from foreign securities which are recorded as soon after the ex-date as the Fund, using reasonable diligence, becomes aware of such dividends. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Income, expenses (excluding class-specific expenses) and realized/unrealized gains/losses are allocated proportionately to each class of shares based upon the relative net asset value of outstanding shares (or the value of dividend eligible shares, as appropriate) of each class at the beginning of the day after adjusting for current capital share activity of the respective classes. Class specific expenses are charged directly to the applicable class of shares.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Valuation of investments

The Fund generally calculates its net asset value on days that the New York Stock Exchange ("NYSE") is open. The Fund calculates net asset value separately for each class as of the close of regular trading on the NYSE (generally, 4:00 p.m., Eastern Time). The NYSE normally is not open, and the Fund does not price its shares, on most national holidays and Good Friday. To the extent that the Fund's assets are traded in other markets on days when the NYSE is not open, the value of the Fund's assets may be affected on those days. If trading on the NYSE is halted for the day before 4:00 p.m., Eastern Time, the Fund's net asset value per share generally will still be calculated as of the close of regular trading on the NYSE. The time at which the Fund calculates its net asset value and until which purchase, sale or exchange orders are accepted may be changed as permitted by the SEC.

The Fund calculates its net asset value based on the current market value, where available, for its portfolio investments. The Fund normally obtains market values for its investments from independent pricing sources and broker dealers. Independent pricing sources may use reported last sale prices, official market closing prices, current market quotations or valuations from computerized "evaluation" systems that derive values based on comparable investments. An evaluation system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio investments. Investments also may be valued based on appraisals derived from information concerning the investment or similar investments received from recognized dealers in those holdings.

Investments traded in the over-the-counter ("OTC") market and listed on The NASDAQ Stock Market, Inc. ("NASDAQ") normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Investments which are listed on US and foreign stock exchanges normally are valued at the market closing price, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. Investments listed on foreign stock exchanges may be fair valued based on significant events that have occurred subsequent to the close of the foreign markets. In cases where investments are traded on more than one exchange, the investments are valued on the exchange designated as the primary market by UBS AM. If a market value is not readily available from an independent pricing source for a particular investment, that investment is valued at fair value as determined in good faith by UBS AM as the valuation

UBS Ultra Short Income Fund

Notes to financial statements

designee appointed by the Fund's Board of Trustees (the "Board") pursuant to Rule 2a-5 under the 1940 Act. Foreign currency exchange rates are generally determined as of the close of the NYSE.

The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with 60 days or less remaining to maturity, unless UBS AM determines that this does not represent fair value.

Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Pursuant to the Fund's use of the practical expedient within ASC Topic 820, Fair Value Measurement, investments in investment companies without publicly published prices are also valued at the daily net asset value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third party pricing services. UBS AM has the Equities, Fixed Income and Multi-Asset Valuation Committee (the "VC") to assist with its designated responsibilities as valuation designee. Fair valuation determinations are subject to review at least monthly by the VC during scheduled meetings. Pricing decisions, processes, and controls over fair value determinations are subject to internal and external reviews, including annual internal compliance reviews and periodic internal audit reviews.

The types of investments for which such fair value pricing may be necessary include, but are not limited to: foreign investments under some circumstances; securities of an issuer that has entered into a restructuring; investments whose trading has been halted or suspended; fixed income securities that are in default and for which there is no current market value quotation; and investments that are restricted as to transfer or resale. The need to fair value a Fund's portfolio investments may also result from low trading volume in foreign markets or thinly traded domestic investments, and when a security that is subject to a trading limit or collar on the exchange or market on which it is primarily traded reaches the "limit up" or "limit down" price and no trading has taken place at that price. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investment is purchased and sold. Valuing investments at fair value involves greater reliance on judgment than valuing investments that have readily available market quotations. Fair value determinations can also involve reliance on quantitative models employed by a fair value pricing service.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Fund's Portfolio of investments.

Investments

Asset-backed securities—The Fund may invest in asset-backed securities ("ABS"), representing interests in pools of certain types of underlying installment loans, home equity loans, leases of various types of real and personal

UBS Ultra Short Income Fund

Notes to financial statements

property and receivables from revolving lines of credit (credit cards). Such assets are securitized through the use of trusts or special purpose corporations. The yield characteristics of ABS differ from those of traditional debt securities. One such major difference is that principal may be prepaid at any time because the underlying obligations generally may be prepaid at any time. ABS may decrease in value as a result of increases in interest rates and may benefit less than other fixed-income securities from declining interest rates because of the risk of prepayment.

Mortgage-backed securities—The Fund may invest in mortgage-backed securities (“MBS”), representing direct or indirect interests in pools of underlying mortgage loans that are secured by real property. These securities provide investors with payments consisting of both principal and interest as the mortgages in the underlying mortgage pools are paid.

The timely payment of principal and interest (but not the market value) on MBS issued or guaranteed by Ginnie Mae (formally known as the Government National Mortgage Association or GNMA) is backed by Ginnie Mae and the full faith and credit of the US government. Obligations issued by Fannie Mae (formally known as the Federal National Mortgage Association or FNMA) and Freddie Mac (formally known as the Federal Home Loan Mortgage Company or FHLMC) are historically supported only by the credit of the issuer, but currently are guaranteed by the US government in connection with such agencies being placed temporarily into conservatorship by the US government.

Some MBS are sponsored or issued by private entities. Payments of principal and interest (but not the market value) of such private MBS may be supported by pools of mortgage loans or other MBS that are guaranteed, directly or indirectly, by the US government or one of its agencies or instrumentalities, or they may be issued without any government guarantee of the underlying mortgage assets but with some form of non-government credit enhancement.

Collateralized mortgage obligations (“CMO”) are a type of MBS. A CMO is a debt security that may be collateralized by whole mortgage loans or mortgage pass-through securities. The mortgage loans or mortgage pass-through securities are divided into classes or tranches with each class having its own characteristics. Investors typically receive payments out of the interest and principal on the underlying mortgages. The portions of these payments that investors receive, as well as the priority of their rights to receive payments, are determined by the specific terms of the CMO class.

The yield characteristics of MBS differ from those of traditional debt securities. Among the major differences are that interest and principal payments are made more frequently, usually monthly, and that principal may be prepaid at any time because the underlying mortgage loans or other obligations generally may be prepaid at any time. Prepayments on a pool of mortgage loans are influenced by a variety of economic, geographic, social and other factors. Generally, prepayments on fixed-rate mortgage loans will increase during a period of falling interest rates and decrease during a period of rising interest rates. Certain classes of CMOs and other MBS are structured in a manner that makes them extremely sensitive to changes in prepayment rates. Such classes include interest-only (“IO”) and principal-only (“PO”) classes. IOs are entitled to receive all or a portion of the interest, but none (or only a nominal amount) of the principal payments, from the underlying mortgage assets. If the mortgage assets underlying an IO experience greater than anticipated principal prepayments, then the total amount of interest payments allocable to the IO class, and therefore the yield to investors, generally will be reduced. Conversely, PO classes are entitled to receive all or a portion of the principal payments, but none of the interest, from the underlying mortgage assets. PO classes are purchased at substantial discounts from par, and the yield to investors will be reduced if principal payments are slower than expected.

Repurchase agreements—The Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller’s agreement to repurchase them at an agreed upon date (or upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. The Fund maintains custody of the purchased securities prior to their repurchase, either through its regular custodian or

UBS Ultra Short Income Fund

Notes to financial statements

through a special “tri-party” custodian or sub-custodian that maintains a separate account for both the Fund and its counterparty (in either case, in accordance with the 1940 Act). The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Fund and the clearing member through which the Fund’s transaction was effected. The Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by the Fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, the Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements involving obligations other than US government securities (such as commercial paper, corporate bonds, equities and mortgage loans) may be subject to special risks and may not have the benefit of certain protections in the event of counterparty insolvency. Moreover, repurchase agreements secured by obligations that are not eligible for direct investment under the Fund’s investment strategies and limitations, may require the Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller’s guarantor, if any) becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. The Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

The Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. Under certain circumstances, the Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having the Fund potentially exposed to a fee for uninvested cash held in a business account at a bank. At April 30, 2026, the Fund was not invested in any repurchase agreements.

Restricted securities: The Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expenses, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included in the Fund’s portfolio footnotes.

Investment advisor and administrator fees and other transactions with affiliates

The Board has approved an Investment Advisory and Administration Contract (the “Advisory Contract”), under which UBS AM serves as investment advisor and administrator of the Fund. In accordance with the Advisory Contract, the Fund is to pay UBS AM an investment advisory fee and an administration fee, which is to be accrued daily and paid monthly, at the annual rates of 0.20% and 0.10%, respectively, of the Fund’s average daily net assets. At April 30, 2026, the Fund owed UBS AM \$49,964 representing investment advisory and administration fees net of fee waivers/expense reimbursements.

UBS Ultra Short Income Fund

Notes to financial statements

UBS AM has contractually undertaken to waive fees/reimburse a portion of the Fund's expenses, when necessary, to maintain the total annual operating expenses (excluding (1) dividend expense, borrowing costs and interest expense relating to short sales, and (2) expenses related to investments in other investment companies, interest, taxes, brokerage commissions, expenses related to shareholders' meetings and extraordinary expenses, if any) of Class A, Class P and Class I shares at a level not to exceed 0.35%, 0.25% and 0.23% of average daily net assets, respectively through August 31, 2026. For the period ended April 30, 2026, UBS AM waived \$604,380 in investment advisory and administration fees. UBS AM may recoup from the Fund any such waived fees/reimbursed expenses during the following three fiscal years, to the extent that ordinary operating expenses (with certain exclusions such as dividend expense, borrowing costs and interest expense) are otherwise below the applicable expense cap in effect at the time the fees or expenses were waived/reimbursed.

At April 30, 2026, the Fund had remaining fee waivers and expense reimbursements subject to repayment to UBS AM and respective dates of expiration as follows:

Fund	Fee waivers/ expense reimbursements subject to repayment	Expires April 30, 2027	Expires April 30, 2028	Expires April 30, 2029
Class A	\$ 344,691	\$134,556	\$112,116	\$ 98,019
Class P	1,614,135	586,142	521,820	506,173
Class I	489	137	164	188

For the period ended April 30, 2026, UBS AM did not voluntarily waive any additional fees.

Service plan

UBS Asset Management (US) Inc. ("UBS AM (US)") is the principal underwriter of the Fund's shares. The Fund has adopted a service plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act for Class A shares. The Plan governs payments made for the expenses incurred in the service of Class A shares. The Fund pays UBS AM (US) monthly service fees at an annual rate of 0.10% of the average daily net assets of Class A shares. At April 30, 2026, the Fund owed UBS AM (US) \$1,764 for service fees.

Transfer agency and related services fees

UBS Financial Services Inc. provides certain services to the Fund pursuant to a delegation of authority from BNY Mellon Investment Servicing (US) Inc. ("BNY Mellon"), the Fund's transfer agent, and is compensated for these services by BNY Mellon, not the Fund. For the period ended April 30, 2026, UBS Financial Services Inc. received from BNY Mellon, not the Fund, total delegated service fees of \$29,874.

Securities lending

The Fund may lend securities up to 33 ⅓% of its total assets to qualified broker-dealers or institutional investors. The loans are initially secured at all times by cash, US government securities and irrevocable letters of credit in an amount at least equal to 102% of the market value of the securities loaned with respect to domestic securities and 105% of the market value of the securities loaned with respect to foreign securities. In the event that the market value of the cash, US government securities, and irrevocable letters of credit securing the loan falls below 100% for domestic securities, and 103% for foreign securities, the borrower must provide additional cash, US government securities, and irrevocable letters of credit so that the total securing the loan is at least 102% of the market value for domestic securities and 105% of the market value for foreign securities.

The Fund will regain ownership of loaned securities to exercise certain beneficial rights; however, the Fund may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower fail financially. The Fund receives compensation for lending its securities from interest or dividends earned on the cash, US government

UBS Ultra Short Income Fund

Notes to financial statements

securities and irrevocable letters of credit held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. Cash collateral received is invested in State Street Navigator Securities Lending Government Money Market Portfolio, which is included in the Fund's Portfolio of investments. State Street Bank and Trust Company serves as the Fund's lending agent.

At April 30, 2026, the Fund had securities on loan at value, cash collateral and non-cash collateral as follows:

Value of securities on loan	Cash collateral	Non-cash collateral*	Total collateral	Security types held as non-cash collateral
\$7,758,219	\$2,045,000	\$5,868,978	\$7,913,978	U.S. Treasury Notes and U.S. Treasury Bills

* These securities are held for the benefit of the Fund at the Fund's custodian. The Fund cannot repledge or resell this collateral. As such, collateral is excluded from the Statement of assets and liabilities.

The table below represents the disaggregation at April 30, 2026 of the gross amount of recognized liabilities for securities lending transactions. As the securities loaned are subject to termination by the Fund or the borrower at any time, the remaining contractual maturities of the transactions presented below are considered to be overnight and continuous.

Fund	Type of securities loaned		Total gross amount of recognized liabilities for securities lending transactions
	Equity securities	Corporate Bonds	
UBS Ultra Short Income Fund	\$—	\$2,045,000	\$2,045,000

Bank line of credit

The Fund participates with other funds managed by UBS AM in a \$175 million committed credit facility (the "Committed Credit Facility") with State Street Bank and Trust Company. The Committed Credit Facility is to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the participating Fund at the request of shareholders and other temporary or emergency purposes. The expiration date of the line of credit agreement was March 30, 2026 and was renewed on March 30, 2026 with substantially the same fees and terms expiring March 29, 2027.

Interest on amounts borrowed is calculated based on the prevailing rates in effect at the time of borrowing. The funds covered by the Committed Credit Facility have agreed to pay an annual 25 basis point commitment fee (i.e., 0.25%) on the average daily balance of the Committed Credit Facility not utilized. Commitment fees have been allocated among the funds in the Committed Credit Facility as follows: 50% of the allocation is based on the relative asset size of funds, and the other 50% of the allocation is based on utilization.

For the period ended April 30, 2026, the Fund had borrowings as follows:

Average daily amount of borrowing outstanding	Days outstanding	Interest expense	Weighted average annualized interest rate
\$2,603,027	17	\$6,650	5.410%

Purchases and sales of securities

For the period ended April 30, 2026, aggregate purchases and sales of portfolio securities, excluding short-term securities, were \$149,284,818 and \$135,466,570, respectively.

UBS Ultra Short Income Fund

Notes to financial statements

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest were as follows:

For the year ended April 30, 2026:

	Class A	
	Shares	Amount
Shares sold	—	\$ —
Shares repurchased	(1,410,403)	(13,903,667)
Dividends reinvested	191,654	1,889,293
Net increase (decrease)	(1,218,749)	\$(12,014,374)

	Class P		Class I	
	Shares	Amount	Shares	Amount

Net increase (decrease)	(833,660)	\$ (8,172,144)	392	\$ 3,848

For the year ended April 30, 2025:

	Class A	
	Shares	Amount
Shares sold	30,112	\$ 296,902
Shares repurchased	(1,948,685)	(19,203,976)
Dividends reinvested	282,975	2,788,841
Net increase (decrease)	(1,635,598)	\$(16,118,233)

	Class P		Class I	
	Shares	Amount	Shares	Amount
Shares sold	7,745,397	\$ 76,277,010	—	\$ —
Shares repurchased	(15,760,805)	(155,151,610)	—	—
Dividends reinvested	1,304,097	12,839,529	430	4,229
Net increase (decrease)	(6,711,311)	\$ (66,035,071)	430	\$ 4,229

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal years ended April 30, 2026 and April 30, 2025, was ordinary income in the amount of \$13,475,008 and \$18,074,558, respectively.

UBS Ultra Short Income Fund

Notes to financial statements

For federal income tax purposes, the estimated cost and unrealized appreciation (depreciation) in value of investments held at April 30, 2026 were as follows:

Cost of investments	Gross unrealized appreciation	Gross unrealized depreciation	Net Unrealized appreciation (depreciation) on investments
\$295,452,939	\$218,376	\$(175,602)	\$42,774

At April 30, 2026, the components of accumulated earnings (deficit) on a tax basis were as follows:

Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
\$100,308	\$—	\$(40,040,299)	\$42,774	\$(191,521)	\$(40,088,738)

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. At April 30, 2026, the Fund had capital loss carryforwards of \$27,783,877 in short-term and \$12,256,422 in long-term capital losses.

During the fiscal year ended April 30, 2026, the Fund did not utilize any capital loss carryforwards.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has analyzed and concluded as of April 30, 2026 that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the period ended April 30, 2026, the Fund did not incur any interest or penalties.

Under the applicable foreign tax laws, gains on certain securities held in certain foreign countries may be subject to taxes that will be paid by the Fund.

Each of the tax years in the four year period ended April 30, 2026, remains subject to examination by the Internal Revenue Service and state taxing authorities.

UBS Ultra Short Income Fund

Report of independent registered public accounting firm

To the Shareholders and the Board of Trustees of UBS Ultra Short Income Fund

Opinion on the financial statements

We have audited the accompanying statement of assets and liabilities of UBS Ultra Short Income Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), including the portfolio of investments, as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

We have served as the auditor of one or more UBS investment companies since 1978.

Ratios to average net assets:			
Expenses before fee waivers and/or expense reimbursements ⁴	0.23%	0.32%	0.31% ⁵
Expenses after fee waivers and/or expense reimbursements ⁴	0.18%	0.18%	0.18% ⁵
Net investment income (loss) ⁴	3.86%	4.58%	5.21% ⁵
Supplemental Data:			
Net assets, end of period (000's)	\$571,140	\$386,694	\$317,001

¹ Commencement of operations.

² Amount represents less than \$0.0005 or \$(0.0005) per share.

³ Total investment return is calculated assuming a \$10,000 investment on the first day of each year reported, reinvestment of all dividends and other distributions, if any, at net asset value on the payable dates, and a sale at net asset value on the last day of each year reported. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions.

⁴ Ratios include the Fund's share of income, expenses and expense waivers allocated from the Master Fund.

⁵ Annualized.

See accompanying notes to financial statements and the attached Master Trust financial statements.

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

Organization and significant accounting policies

Cantor Fitzgerald Government Money Market Fund (“Cantor Fitzgerald Government Fund” or the “Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of UBS Series Funds (the “Trust”), an open-end management investment company organized as a Delaware statutory trust on April 29, 1998. The Trust is a series mutual fund with thirteen series. The financial statements for the other series of the Trust are not included herein.

Cantor Fitzgerald Government Fund is a “feeder fund” that invests substantially all of its assets in a “master fund”—Government Master Fund (the “Master Fund”, a diversified series of Master Trust, an open-end investment company registered with the SEC under the 1940 Act). The feeder fund and its respective Master Fund have the same investment objectives. Cantor Fitzgerald Government Fund Investor Shares and Institutional Shares commenced operations on January 16, 2024, and March 25, 2024, respectively.

UBS Asset Management (Americas) LLC (“UBS AM”) is the investment advisor and administrator for the Master Fund and the administrator for the Fund. UBS Asset Management (US) Inc. (“UBS AM—US”) serves as principal underwriter for the Fund. UBS AM and UBS AM—US are indirect wholly owned subsidiaries of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

The performance of the Fund is directly affected by the performance of the Master Fund. The value of such investment reflects the Fund’s proportionate interest in the net assets of the Master Fund (2.43% at April 30, 2026).

All of the net investment income and realized and unrealized gains and losses from investment activities of the Master Fund are allocated pro rata, based on respective ownership interests, among the Fund and other investors in the Master Fund (e.g., other feeder funds) at the time of such determination. The financial statements of the Master Fund, including the Portfolio of investments, are included elsewhere in this report and should be read in connection with the Fund’s financial statements. The Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had any prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280)—Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Fund’s financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Fund’s portfolio management team acts as both the Master and Feeder Fund’s CODM. The Fund represents a single operating segment, as the CODM moni-

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

tors the operating results of the Fund as a whole, and the Master Fund's long-term strategic asset allocation is pre-determined in accordance with the Fund's single investment objective which is executed by the Master Fund's portfolio managers as a team. The financial information in the form of the Master Fund's portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment's performance versus the Fund's comparative benchmarks and to make resource allocation decisions for the Fund's single segment, is consistent with that presented within the Fund's financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as "total assets" and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments—The Fund records its investment in the Master Fund at fair value. Securities held by the Master Fund are valued as indicated in the Master Fund's Notes to financial statements, which are included elsewhere in this report.

Constant net asset value per share—Cantor Fitzgerald Government Fund attempts to maintain a stable net asset value of \$1.00 per share. There is no assurance, however, that the Fund will be able to maintain a stable net asset value of \$1.00 per share. The Fund and the Master Fund have adopted certain investment, portfolio valuation and dividend/distribution policies in an attempt to enable the Fund to do so. Cantor Fitzgerald Government Fund and the Master Fund have each adopted a policy to operate as a "government money market fund". Under Rule 2a-7 of the 1940 Act, a "government money market fund" invests 99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities) (either directly or through a related master portfolio). As a "government money market fund", Cantor Fitzgerald Government Fund is permitted to seek to maintain a stable price per share.

Liquidity fee—By operating as a "government money market fund", Cantor Fitzgerald Government Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Fund's Board of Trustees (the "Board") may elect to subject Cantor Fitzgerald Government Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Dividends and distributions—Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends from investment income and distributions from realized capital gains and/or return of capital are determined in accordance with US federal income tax regulations, which may differ from US GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Administrator

UBS AM serves as administrator to the Fund pursuant to an Administration Agreement approved by the Trust's board. In accordance with the Administration Agreement, the Fund pays UBS AM an administration fee, which is accrued daily and paid monthly, at the below annual rate, as a percentage of the Fund's average daily net assets:

Fund	Administration fee
Cantor Fitzgerald Government Money Market Fund	0.08%

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

The Fund and UBS AM, the Fund's administrator, have entered into a written fee waiver/expense reimbursement agreement pursuant to which UBS AM is contractually obligated to waive its fees and/or reimburse the Fund so that the Fund's operating expenses including expenses allocated from the Master Fund through August 31, 2026 (excluding interest expense, if any, expenses related to shareholders' meetings and extraordinary items) would not exceed 0.30% for Investor Shares and 0.18% for Institutional Shares. The Fund has agreed to repay UBS AM for any waived management fees/reimbursed expenses to the extent that it can do so over the three years following such waived fees/reimbursed expenses without causing the Fund's expenses in any of those three years to exceed the lesser of any applicable expense limit that is in place for the Fund (i) at the time of the waiver or reimbursement, or (ii) at the time of recoupment.

At April 30, 2026, the Fund owed UBS AM \$30,595 for investment advisory and administration services.

At April 30, 2026, the Fund had remaining fee waivers/expense reimbursements subject to repayment to UBS AM and respective dates of expiration as follows:

Fund	Fee waivers/ expense reimbursements subject to repayment	Expires April 30, 2027	Expires April 30, 2028	Expires April 30, 2029
Cantor Fitzgerald Government Money Market Fund—Investor Shares	\$ 97,993	\$55,084	\$ 38,278	\$ 4,631
Cantor Fitzgerald Government Money Market Fund—Institutional Shares	746,830	28,324	423,939	294,567

Shareholder services plan

UBS AM—US is the principal underwriter and distributor of the Fund's shares. Under the shareholder services plan, UBS AM—US is entitled to a monthly shareholder servicing fee, payable by Investor Shares, at the below annual rate, as a percentage of such share's average daily net assets. UBS AM—US will waive 0.15% of the 0.25% service fee otherwise payable by the Investor Shares of the Fund through August 31, 2026 and such amount is not subject to future recoupment.

Fund	Shareholder servicing fee
Cantor Fitzgerald Government Money Market Fund- Investor Shares	0.25%

At April 30, 2026, the Fund owed UBS AM—US \$1,233 for shareholder servicing fees.

Shares of beneficial interest

There is an unlimited amount of \$0.001 par value shares of beneficial interest authorized. Transactions in shares of beneficial interest, at \$1.00 per share, were as follows:

Investor Shares	For the years ended April 30,	
	2026	2025
Shares sold	—	30,000,000
Shares repurchased	—	(30,000,000)
Net increase (decrease) in beneficial interest	—	—

Institutional Shares

	For the years ended April 30,	
	2026	2025
Shares sold	43,481,084,885	34,581,050,289
Shares repurchased	(43,305,076,705)	(34,512,621,013)
Dividends reinvested	8,437,062	1,250,079
Net increase (decrease) in beneficial interest	184,445,242	69,679,355

Cantor Fitzgerald Government Money Market Fund

Notes to financial statements

Federal tax status

The Fund intends to distribute substantially all of its income and to comply with the other requirements of the Internal Revenue Code applicable to regulated investment companies. Accordingly, no provision for federal income taxes is required. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax.

The tax character of distributions paid during the fiscal year ended April 30, 2026 and April 30, 2025 were as follows:

	2026		
Fund	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	Total distributions paid
Cantor Fitzgerald Government Money Market Fund	\$23,555,552	\$—	\$23,555,552

	2025		
Fund	Distributions paid from ordinary income	Distributions paid from net long-term capital gains	Total distributions paid
Cantor Fitzgerald Government Money Market Fund	\$14,737,787	\$—	\$14,737,787

At April 30, 2026, the components of accumulated earnings (deficit) on a tax basis were as follows:

Fund	Undistributed ordinary income	Undistributed long-term capital gains	Accumulated realized capital and other losses	Unrealized appreciation (depreciation)	Other temporary differences	Total
Cantor Fitzgerald Government Money Market Fund	\$1,853,683	\$12,813	\$—	\$—	\$(1,851,766)	\$14,730

Net capital losses recognized by the Fund may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. These carryforwards are available as a reduction, to the extent provided in the regulations, of future realized capital gains. To the extent that such losses are used to offset future net realized capital gains, it is probable these gains will not be distributed. As of April 30, 2026, the Fund had no net capital loss carry-forward.

ASC 740-10 "Income Taxes—Overall" sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Fund has conducted an analysis and concluded as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would require recognition in the financial statements. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year ended April 30, 2026, the Fund did not incur any interest or penalties.

The income generated by Cantor Fitzgerald Government Fund is entirely classified as Qualified Interest Income ("QII"). According to Section 871(k) of the Internal Revenue Code, QII enables interest income from U.S. government securities and eligible instruments to be distributed without being subject to U.S. withholding tax.

For the fiscal year ended April 30, 2026, and the periods since inception, the Fund remains subject to examination by the Internal Revenue Service and state taxing authorities.

Cantor Fitzgerald Government Money Market Fund

Report of independent registered public accounting firm

To the Shareholders and the Board of Trustees of Cantor Fitzgerald Government Money Market Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Cantor Fitzgerald Government Money Market Fund (the "Fund") (one of the funds constituting UBS Series Funds (the "Trust")), as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the two years in the period ended April 30, 2026 and the period from January 16, 2024 (commencement of operations) through April 30, 2024 and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting UBS Series Funds) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the two years in the period ended April 30, 2026 and the period from January 16, 2024 (commencement of operations) through April 30, 2024, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style.

We have served as the auditor of one or more UBS investment companies since 1978.

New York, New York

Government Master Fund

Understanding a Master Fund's expenses (unaudited)

(Note: The expense information provided in this section is relevant for direct investors in the Master Fund. Investors in the related "feeder fund" should instead focus on separate expense information relevant to the particular feeder fund; the expense information for the feeder fund will reflect its proportionate share of the corresponding Master Fund's expenses.)

As an owner of a Master Fund, an investor such as a feeder fund incurs ongoing costs, including management fees and other Master Fund expenses. This example is intended to help you understand a Master Fund investor's ongoing costs (in dollars) of investing in a Master Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example below is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, November 1, 2025 to April 30, 2026.

Actual expenses

The first line in the table below for the Master Fund provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over a period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses paid during period" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line in the table below for the Master Fund provides information about hypothetical account values and hypothetical expenses based on the Master Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Master Fund's actual return. The hypothetical account values and expenses may not be used to estimate your actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Master Fund and other funds. To do so, compare these 5% hypothetical examples with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs. Therefore, the second line in the table for the Master Fund is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds, if those other funds impose transactional costs—for example, exchange fees. In addition, if those transactional costs were included, your costs for those other funds would have been higher.

	Beginning account value November 1, 2025	Ending account value April 30, 2026	Expenses paid during period 11/01/25 to 04/30/26 ¹	Expense ratio during the period
Actual	\$1,000.00	\$1,022.00	\$0.50	0.10%
Hypothetical (5% annual return before expenses)	1,000.00	1,024.30	0.50	0.10

¹ Expenses are equal to the Master Fund's annualized net expense ratio, multiplied by the average account value over the period, multiplied by 181 divided by 365 (to reflect the one-half year period).

Master Trust

Government Master Fund

Portfolio characteristics at a glance—April 30, 2026 (unaudited)

Characteristics

Weighted average maturity ¹	41 days
Portfolio composition²	
U.S. government agency obligations	46.4%
Repurchase agreements	32.1
U.S. Treasury obligations	20.5
Other assets in excess of liabilities	1.0
Total	100.0%

You could lose money by investing in a money market fund. Although Government Master Fund seeks to preserve the value of your investment so that the shares of each related feeder fund are at \$1.00 per share, Government Master Fund cannot guarantee it will do so. An investment in a money market fund is not a bank account and not insured or guaranteed by the Federal Deposit Insurance Corporation (“FDIC”) or any other government agency. A money market fund’s sponsor is not required to reimburse the fund for losses, and you should not expect that the fund’s sponsor will provide financial support to a money market fund at any time, including during periods of market stress.

Not FDIC insured. May lose value. No bank guarantee.

¹ The Master Fund’s portfolio is actively managed and its weighted average maturity will differ over time.

² Weightings represent percentages of the Master Fund’s net assets as of the date indicated. The Master Fund’s portfolio is actively managed and its composition will vary over time.

Fair valuation summary

The following is a summary of the fair valuations according to the inputs used as of April 30, 2026 in valuing the Master Fund's investments. In the event a Master Fund holds investments for which fair value is measured using the NAV per share practical expedient (or its equivalent), a separate column will be added to the fair value hierarchy table; this is intended to permit reconciliation to the amounts presented in the Portfolio of investments:

Description	Unadjusted quoted prices in active markets for identical investments (Level 1)	Other significant observable inputs (Level 2)	Unobservable inputs (Level 3)	Total
Assets				
U.S. government agency obligations	\$—	\$ 11,220,473,846	\$—	\$ 11,220,473,846
U.S. Treasury obligations	—	4,941,415,451	—	4,941,415,451
Repurchase agreements	—	7,748,000,000	—	7,748,000,000
Total	\$—	\$23,909,889,297	\$—	\$23,909,889,297

For the period ended April 30, 2026, there were no transfers in or out of Level 3.

Portfolio footnotes

¹ Floating or variable rate securities. The rates disclosed are as of April 30, 2026. For securities based on a published reference rate and spread, the reference rate and spread are indicated within the description. Variable rate securities with a floor or ceiling feature are disclosed at the inherent rate, where applicable. Certain variable rate securities are not based on a published reference rate and spread, but are determined by the issuer or agent and are based on current market conditions; these securities do not indicate a reference rate and spread in the description.

² Rate shown is the discount rate at the date of purchase unless otherwise noted.

³ Rate shown reflects yield at April 30, 2026.

⁴ Investment has a put feature, which allows the Master Fund to accelerate the maturity, and a variable or floating rate. The interest rate shown is the current rate as of April 30, 2026 and changes periodically. The maturity date reflects the earliest put date and the proceeds represent the receivable of the Master Fund if the put feature was exercised as of April 30, 2026.

Expenses before fee waivers	0.10%	0.10%	0.10%	0.10%	0.10%
Expenses after fee waivers	0.10%	0.10%	0.10%	0.04%	0.06%
Net investment income (loss)	3.95%	4.77%	5.25%	3.78%	0.02%
Supplemental data:					
Total investment return ¹	4.04%	4.90%	5.39%	3.14%	0.03%
Net assets, end of year (000's)	\$24,161,264	\$24,042,755	\$23,323,471	\$19,234,965	\$4,297,678

¹ The total investment return for the Master Funds is calculated using geometric average return. The Master Funds issue ownership interests, rather than shares, to the feeder funds. Individual investors invest only into the feeder funds. Feeder fund total investment return is calculated as described within the feeder fund financial highlights and may differ from the geometric average return of the Master Fund.

Government Master Fund

Notes to financial statements

Organization and significant accounting policies

Government Master Fund (the “Master Fund”) is registered with the US Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended (“1940 Act”), as a diversified series of Master Trust, an open-end management investment company organized as a Delaware statutory trust on June 12, 2007. Government Master Fund commenced operations on June 24, 2016.

UBS Asset Management (Americas) LLC (“UBS AM”) is the investment advisor and administrator for the Master Fund. UBS AM is an indirect wholly owned subsidiary of UBS Group AG. UBS Group AG is an internationally diversified organization with headquarters in Zurich, Switzerland. UBS Group AG operates in many areas of the financial services industry.

Master Trust accounts separately for the assets, liabilities and operations of each series. Expenses directly attributable to each series are charged to that series’ operations; expenses which are applicable to all series are allocated among them on a pro rata basis.

In the normal course of business, the Master Fund may enter into contracts that contain a variety of representations that provide indemnification for certain liabilities. The Master Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Master Fund that have not yet occurred. However, the Master Fund has not had any prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) is the exclusive reference of authoritative US generally accepted accounting principles (“US GAAP”) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Master Fund’s financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The Master Fund adopted FASB Accounting Standards Update 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures* (“ASU 2023-07”). Adoption of the new standard impacts financial statement disclosures only and does not affect the Master Fund’s financial position or the results of its operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entity’s chief operating decision maker (CODM) to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The Master Fund’s portfolio management team acts as the Fund’s CODM. The Master Fund represents a single operating segment, as the CODM monitors the operating results of the Master Fund as a whole, and the Master Fund’s long-term strategic asset allocation is pre-determined in accordance with the Master Fund’s single investment objective which is executed by the Master Fund’s portfolio managers as a team. The financial information in the form of the Master Fund’s portfolio composition, total returns, expense ratios and changes in net assets (i.e., changes in net assets resulting from operations, subscriptions and redemptions) which are used by the CODM to assess the segment’s performance versus the Master Fund’s comparative benchmarks and to make resource allocation decisions for the Master Fund’s single segment, is consistent with that presented within the Master Fund’s financial statements. Segment assets are reflected on the accompanying Statement of assets and liabilities as “total assets” and significant segment expenses are listed on the accompanying Statement of operations.

The following is a summary of significant accounting policies:

Valuation of investments

Under Rule 2a-7 under the 1940 Act, as amended (“Rule 2a-7”), Government Master Fund has adopted a policy to operate as a “government money market fund”. Under Rule 2a-7, a “government money market fund” invests

Government Master Fund

Notes to financial statements

99.5% or more of its total assets in cash, government securities, and/or repurchase agreements that are collateralized fully (i.e., collateralized by cash and/or government securities). As a “government money market fund”, Government Master Fund values its investments at amortized cost unless UBS AM, as the valuation designee appointed by Master Trust’s Board of Trustees (the “Board”) pursuant to Rule 2a-5 under the 1940 Act determines that this does not represent fair value. Periodic review and monitoring of the valuation of securities held by Government Master Fund is performed in an effort to ensure that amortized cost approximates market value.

The Board has designated UBS AM as the valuation designee pursuant to Rule 2a-5 under the 1940 Act and delegated to UBS AM the responsibility for making fair value determinations with respect to portfolio holdings. UBS AM, as the valuation designee, is responsible for periodically assessing any material risks associated with the determination of the fair value of investments; establishing and applying fair value methodologies; testing the appropriateness of fair value methodologies; and overseeing and evaluating third-party pricing services. UBS AM has the Equities, Fixed Income, and Multi-Asset Valuation Committee (the “VC”) to assist with its designated responsibilities as valuation designee with respect to the Master Fund’s portfolio of investments. The types of investments for which such fair value pricing may be necessary include, but are not limited to: investments of an issuer that has entered into a restructuring; fixed-income investments that have gone into default and for which there is no current market value quotation; Section 4(a)(2) commercial paper; investments that are restricted as to transfer or resale; illiquid investments; and investments for which the prices or values available do not, in the judgment of the VC, represent current market value. The need to fair value the Master Fund’s portfolio of investments may also result from low trading volume in foreign markets or thinly traded investments. Various factors may be reviewed in order to make a good faith determination of an investment’s fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investment; and the evaluation of forces which influence the market in which the investments are purchased and sold.

The Master Fund’s portfolio holdings may also consist of shares of other investment companies in which the Master Fund invests. The value of each such open-end investment company will generally be its net asset value at the time a Master Fund’s beneficial interests are priced. Pursuant to the Master Fund’s use of the practical expedient within ASC Topic 820, investments in non-registered investment companies and/or investments in investment companies without publicly published prices are also valued at the daily net asset value. Each investment company generally values investments in a manner as described in that investment company’s prospectus or similar documents.

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Master Fund’s investments. These inputs are summarized into the three broad levels listed below:

Level 1—Unadjusted quoted prices in active markets for identical investments.

Level 2—Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risks.

Level 3—Unobservable inputs inclusive of the Master Fund’s own assumptions in determining the fair value of investments.

A fair value hierarchy table has been included near the end of the Master Fund’s Portfolio of investments.

Liquidity fee—By operating as a “government money market fund”, Government Master Fund is exempt from requirements that permit the imposition of a liquidity fee. While the Board may elect to subject Government Master Fund to liquidity fee requirements in the future, the Board has not elected to do so at this time.

Repurchase agreements—Government Master Fund may purchase securities or other obligations from a bank or securities dealer (or its affiliate), subject to the seller’s agreement to repurchase them at an agreed upon date (or upon demand) and price. In all cases, underlying collateral (the purchased obligations) is valued daily in an effort

Government Master Fund

Notes to financial statements

to ensure that the value of the purchased securities, including accrued interest, is at least equal to the repurchase price. Government Master Fund maintains custody of the purchased securities prior to their repurchase, either through its regular custodian or through a special “tri-party” custodian or sub-custodian that maintains a separate account for both Government Master Fund and its counterparty (in either case, in accordance with the 1940 Act). The underlying collateral is valued daily in an effort to ensure that the value, including accrued interest, is at least equal to the repurchase price.

In certain cases, these repurchase agreements are cleared through a central counterparty so that each of the Fund and the seller faces the central counterparty on the trade. These cleared repurchase agreements are subject to additional rules and requirements of the central counterparty and are also subject to a bilateral agreement between the Fund and the clearing member through which the Fund’s transaction was effected. The Fund maintains custody of the securities prior to their repurchase in accordance with the 1940 Act. Repurchase agreements collateralized by US Treasury securities will be subject to mandatory clearing as of June 30, 2027.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed-upon additional amount, the counterparty must provide additional collateral so that the collateral is at least equal to the repurchase price plus any agreed-upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a fund upon acquisition is accrued as interest and included in its net investment income. In the event of default of the obligation to repurchase, Government Master Fund generally has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Repurchase agreements secured by obligations that are not eligible for direct investment under Rule 2a-7 or a fund’s investment strategies and limitations may require Government Master Fund to promptly dispose of such collateral if the seller or guarantor becomes insolvent. If the seller (or seller’s guarantor, if any) becomes insolvent, Government Master Fund may suffer delays, costs and possible losses in connection with the disposition or retention of the collateral. Under certain circumstances, in the event of default or bankruptcy by any other party to the transaction (including by the central counterparty in the case of cleared repurchase agreements), realization and/or retention of the collateral may be subject to legal proceedings. Government Master Fund intends to enter into repurchase agreements only in transactions with counterparties believed by UBS AM to present minimal credit risk.

Government Master Fund may participate in joint repurchase agreement transactions with other funds managed or advised by UBS AM. The Master Fund may engage in repurchase agreements as part of normal investing strategies.

Under certain circumstances, Government Master Fund may engage in a repurchase agreement transaction with a yield of zero in order to invest cash amounts remaining in its portfolio at the end of the day in order to avoid having Government Master Fund potentially exposed to a fee for uninvested cash held in a business account at a bank.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Concentration of risk—The ability of the issuers of the debt securities held by the Master Fund to meet their obligations may be affected by economic, political and other developments particular to a specific industry, country, state or region.

Investment advisor and administrator

UBS AM serves as the investment advisor and administrator to the Master Fund pursuant to an investment advisory and administration contract (“Management Contract”) approved by the Board. In accordance with the Management

Government Master Fund

Notes to financial statements

Contract, the Master Fund pays UBS AM an investment advisory and administration fee (“management fee”), which is accrued daily and paid monthly, at the below annual rates, as a percentage of the Master Fund’s average daily net assets:

Average daily net assets	Annual rate
Up to \$30 billion	0.1000%
In excess of \$30 billion up to \$40 billion	0.0975
In excess of \$40 billion up to \$50 billion	0.0950
In excess of \$50 billion up to \$60 billion	0.0925
Over \$60 billion	0.0900

At April 30, 2026, the Master Fund owed UBS AM for investment advisory and administration services, net of waivers (if any), as follows:

Fund	Amount owed to UBS AM
Government Master Fund	\$1,941,245

In exchange for these fees, UBS AM has agreed to bear all of the Master Fund’s expenses other than taxes, extraordinary costs and the cost of securities purchased and sold by the Master Fund, including any transaction costs. Although UBS AM is not obligated to pay the fees and expenses of the Master Fund’s independent trustees, it is contractually obligated to reduce its management fee in an amount equal to those fees and expenses. UBS AM estimates that these fees and expenses will be 0.01% or less of the Master Fund’s average daily net assets. At April 30, 2026, UBS AM did not owe the Master Fund any additional reductions in administration fees for independent trustees’ fees and expenses.

In addition, UBS AM may voluntarily undertake to waive fees. This additional undertaking is voluntary and not contractual and may be terminated at any time. During the period ended April 30, 2026, the Master Fund did not experience this additional waiver.

Beneficial interest transactions

Government Master Fund

	For the years ended April 30,	
	2026	2025
Contributions	\$ 103,480,224,450	\$ 92,715,049,160
Withdrawals	(104,376,424,731)	(93,245,498,292)
Net increase (decrease) in beneficial interest	\$ (896,200,281)	\$ (530,449,132)

Federal tax status

Government Master Fund is considered a non-publicly traded partnership for federal income tax purposes under the Internal Revenue Code; therefore, no federal tax provision is necessary. As such, each investor in the Master Fund is treated as owning its proportionate share of the net assets, income, expenses, and realized and unrealized gains and losses of the Master Fund. UBS AM intends that the Master Fund’s assets, income and distributions will be managed in such a way that an investor in the Master Fund will be able to continue to qualify as a regulated investment company by investing its net assets through the Master Fund.

ASC 740-10 “Income Taxes—Overall” sets forth a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken. The Master Fund has conducted an analysis and concluded, as of April 30, 2026, that there are no significant uncertain tax positions taken or expected to be taken that would

Government Master Fund

Notes to financial statements

require recognition in the financial statements. The Master Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the statement of operations. During the period ended April 30, 2026, the Master Fund did not incur any interest or penalties.

Each of the tax years in the four year period ended April 30, 2026, remains subject to examination by the Internal Revenue Service and state taxing authorities.

Government Master Fund

Report of independent registered public accounting firm

To the Interest holders and the Board of Trustees of Government Master Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Government Master Fund (the "Fund") (one of the funds constituting Master Trust (the "Trust")), including the portfolio of investments, as of April 30, 2026, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting Master Trust) at April 30, 2026, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and in accordance with the relevant ethical requirements relating to our audits.

We conducted our audits in accordance with the auditing standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of April 30, 2026, by correspondence with the custodian, brokers and others; when replies were not received from brokers and others, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The signature of Ernst & Young LLP is written in a cursive, handwritten style. The words "Ernst & Young" are in a larger, more stylized script, and "LLP" is in a smaller, simpler script to the right.

We have served as the auditor of one or more UBS investment companies since 1978.
